Write a short story about what it might be like if you woke up one morning with a mermaid tail.

Write about what would it be like if you had an alligator as a pet.

If you were in charge of the whole world, what would you do to make the world a happier place?

Imagine that dogs take over the world. What do they make the humans do?

Write about 3 places you would like to travel someday. What do these three places have in common?

Write a poem that starts with the word "if".

How do you feel when someone takes something of yours without asking? What is a good way to deal with it when that happens?

Imagine you walk out your front door one morning and it is raining popcorn! What do you do?

Reading and Writing Pathways through Children's and Young Adult Literature Alicia Curtin, 2022-07-29 This thought-provoking book will provide masters, students, teachers, and researchers with a toolkit and theoretical framework for teaching literacy through children's literature. It features innovative ideas for developing student and teacher experiences with literature and popular culture texts in the classroom, providing practical examples and teaching aids throughout. Taking a collaborative approach, Curtin explores how teachers and learners can engage with literature and its authors for the development of literacy in classroom practice. Connecting reader and writer identities and worlds through interviews with and suggested classroom activities from authors themselves, this text combines author, teacher, and learner perspectives in the development of creative pedagogies that extend understandings of literacy beyond reading, writing, and text. Exploring fairy tales, comic books, and graphic novels, children living in literature, i.e., texts which portray children, their lives, and experiences, popular culture, young adult fiction, and non-fiction, and digital texts such as blogs, etc., this text develops a sociocultural understanding of literacy as a lived and contextually dependent practice where meaning is derived through relationships between people, settings, and culture. Different contexts for literacy are explored, including reading and writing strategically to learn about literacy and literature widely for personal purposes and deeply to transform understanding. Short, 2011. This text will be an invaluable resource for teachers, researchers, or anyone interested in reading and writing stories. The author interviews will also be of particular interest to older learners themselves as a way to develop their understanding of their own reading and writing practices. Pedagogies can be adapted to any age group ranging
