

LESSON PLAN

Topic	Public speaking skills
AIM	1. To develop speaking skills and help students gain confidence in public 2. To stimulate creative ability 3. To promote critical and reflective thinking by deal with feedback on public speaking skills
Level	A2
Length	50 minutes

1. Class description

The students in this class are freshmen. There are 30 members including both males and females. Because the offline class starts at 1.00 in the afternoon, the students are not often alert enough and cannot concentrate on the lesson.

2. Timetable fit

In the previous lesson, the teacher instructed public speaking skills and shown students the presentation skills.

3. Learning outcomes:

By the end of the lesson, students will be able to:

- Design a speech about different topics to convince others
- Develop speaking skills and presentation skills
- Develop students' creativity
- Solve feedback, reflection or questions in public speaking

4. Is there any new vocabulary that the students need to know? How will you address this?

* Skills:

- Public speaking

To address new vocabularies, teacher explains the meaning, pronunciation, and examples of those words. In addition, the teacher asks the students to repeat the word as well as asks them to give an example with the newly learned word.

Simplified Signs: A Manual Sign-Communication System for Special Populations, Volume 1. John D. Bonvillian, Nicole Kissane Lee, Tracy T. Dooley, Filip T. Loncke, 2020-07-30 Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages It is the culmination of over twenty years of research and development by the authors The Simplified Sign System has been developed and tested for ease of sign comprehension memorization and formation by limiting the complexity of the motor skills required to form each sign and by ensuring that each sign visually resembles the meaning it conveys Volume 1 outlines the research underpinning and informing the project and places the Simplified Sign System in a wider context of sign usage historically and by different populations Volume 2 presents the lexicon of signs totalling approximately 1000 signs each with a clear illustration and a written description of how the sign is formed as well as a memory aid that connects the sign visually to the meaning that it conveys While the Simplified Sign System originally was developed to meet the needs of persons with intellectual disabilities cerebral palsy autism or aphasia it may also assist the communication needs of a wider audience such as healthcare professionals aid workers military personnel travellers or parents and children who have not yet mastered spoken language The system also has been shown to enhance learning for individuals studying a foreign language Lucid and comprehensive this work constitutes a valuable resource that will enhance the communicative interactions of many different people and will be of great interest to researchers and educators alike
