Faith-Based Education That Constructs HeeKap Lee, 2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism

New Strategy Through Space Neville Brown, 1990 Since the strategic defense initiative was announced in March 1983 our views concerning the use of outer space have been dominated by arguments about the narrowly military requirements of the superpowers Professor Brown argues that this has resulted in a damaging distortion of our appreciation of the true strategic importance of the area around our planet

Higher Education Leadership Rozana Carducci, Jordan Harper, Adrianna Kezar, 2024-02-06 Sharing the new and evolving approaches to higher education leadership that foster liberatory systemic change Higher Education Leadership offers a groundbreaking exploration of leadership in higher education Rozana Carducci Jordan Harper and Adrianna Kezar challenge traditional paradigms and ideologies that hinder progress advocating instead for liberatory systemic change The authors highlight new and evolving interdisciplinary leadership approaches for resisting and dismantling oppressive systems including neoliberalism and white supremacy within
