CHAPTER 1 CRITICAL THINKING, CLINICAL JUDGMENT, AND THE NURSING PROCESS

AUDIO CASE STUDY

Jane Practices Clinical Judgment

1. Identify and analyze cues; prioritize hypotheses; generate solutions; take action; evaluate outcomes; repeat.
2. Jane was exhausted, failed a test, and was pulled in too many directions. She was also crying in her car and had poor study habits and not enough sleep.
3. Jane's resources included a good friend, sick time from work, and wasted time between classes that she could better utilize. Your resources will be different, but they exist!
4. Critical thinking—the *why*: Jane uses critical thinking to determine why her current plan isn't working. She thinks honestly about her poor study habits, her time-management problems, and the impact this is having on her and her family.
Clinical judgment—the *do*: Jane uses her thinking to develop and carry out a plan that uses her resources and provides more productive study time and more quality time with her kids.

Visions of Invasion Michael Lechuga, 2023-03-02 *Visions of Invasion: Alien Affects, Cinema, and Citizenship in Settler Colonies* explores how the US government mobilizes media and surveillance technologies to operate a highly networked multidimensional system for controlling migrants. Author Michael Lechuga focuses on three arenas where a citizenship control assemblage manufactures alienhood: Hollywood extraterrestrial invasion film, federal antimigration and border security legislation, and various immigration enforcement protocols implemented along the Mexico-United States border. Building on rhetorical studies, settler colonial studies, and media studies, *Visions of Invasion* offers a glimpse at how the processes of alien-making contribute to an ongoing settler colonial project in the US. Lechuga demonstrates that popular films like *The War of the Worlds*, *Predator*, *Men in Black*, and more participate in the production of migrants as subjective terrorists, felons, and other noncitizen personae vilified in public discourse. Beyond just tracing how alien invasion narratives circulate in popular media, Lechuga describes how the logics motivating early US colonists materialize in both the US's citizenship control policy and in some of the country's most popular texts. Beneath each of the film franchises and antimigrant political expressions described in *Visions of Invasion* lies an anxious colonial logic in which the settler way of life is seemingly threatened by false narratives of imminent invasion from abroad. The volume offers a deep dive into how the rhetorical figure of the alien has been manufactured as a political subjectivity one that plays out the anxieties, guilts, and fears of colonialism in today's science fiction landscape.

Digital Culture and the U.S.-Mexico Border Rubria Rocha de Luna, Maricruz Castro Ricalde, 2024-11-18 Conceptualizing how digital artifacts can function as a frontier mediated by technology in the geographical, physical, sensory, visual, discursive, and imaginary, this volume offers an interdisciplinary analysis of digital material circulating online in a way that creates a digital dimension of the Mexico-US border. In the context of a world where digital media has helped to shape geopolitical borders and impacted human mobility in positive and negative ways, the book explores new modes of expression in which identification, memory, representation, persuasion, and meaning-making are created, experienced, and/or circulated through digital technologies. An interdisciplinary team of scholars looks at how quick communications bring closer transnational families and how online resources can be helpful for migrants but also at how digital media can serve to control and reinforce borders via digital technology used to create a system of political control that reinforces stereotypes. The book deconstructs digital artifacts such as the digital press, social media, digital archives, web platforms, technological and artistic creations.
