Wetwares Richard Doyle, 2003 The mind of the machine the body suspended in time organs exchanged thought computed genes manipulated DNA samples abducted by aliens the terrain between science and speculation fraught with the possibility of technological and perhaps even evolutionary transformations is the territory Richard Doyle explores in *Wetwares* In a manner at once sober and playful Doyle maps potentials for human transformation by new ecologies of information in the early twenty first century *Wetwares* ranges over recent research in artificial life cloning cryonics computer science organ transplantation and alien abduction Moving between actual technical practices serious speculative technology and science fiction Doyle shows us emerging scientific paradigms where life becomes more a matter of information than of inner vitality in short becomes wetwares for DNA and computer networks Viewing technologies of immortality from cryonics to artificial life as disciplines for welcoming a thoroughly other future a future of neither capital god human nor organism the book offers tools for an evolutionary transhuman mutation in the utterly unpredictable decades to come

The Pentagon's Brain Annie Jacobsen, 2015-09-15 Discover the definitive history of DARPA the Defense Advanced Research Project Agency in this Pulitzer Prize finalist from the author of the New York Times bestseller *Area 51* No one has ever written the history of the Defense Department's most secret most powerful and most controversial military science R D agency In the first ever history about the organization New York Times bestselling author Annie Jacobsen draws on inside sources exclusive interviews private documents and declassified memos to paint a picture of DARPA or the Pentagon's brain from its Cold War inception in 1958 to the present This is the book on DARPA a compelling narrative about this clandestine intersection of science and the American military and the often frightening results

Diplomacy, Society and the COVID-19 Challenge Erman Akilli, Burak Güneş, Ahmet Gökbilgin, 2023-10-20 *Diplomacy Society and the COVID 19 Challenge* brings together authors from various disciplinary backgrounds to examine the impacts of the pandemic on world politics and international relations focusing on diplomacy and national regional and global responses to COVID 19 The authors adopt a critical perspective which questions the general assumption that security is only related to state security The book's first part deals with diplomacy and COVID 19 exploring forms such as virtual digital and science diplomacy The second part on national and regional responses to COVID 19 provides a detailed evaluation of the foreign policies of states and regional actors and the national regional impacts of the pandemic The third part investigates the responses of international organisations such as NATO and the OECD to COVID 19

s transformative and disruptive effects This book will be of interest to students scholars and researchers of international relations diplomacy security studies global governance political science political economy and global public health especially those with a particular focus on COVID 19 and how it has changed the world **The H5N1 Virus** Philip R.

Egert,2019-11-18 This book is the first study of its kind that reveals the social justice linkages between three unique characteristics of the highly pathogenic avian influenza H5N1 virus namely veterinary scourge public health contagion fear and potential bioterrorist weapon With its extensive referencing it will be invaluable for scholars of security studies global public health and international relations as well as for professionals diplomats and practitioners with an interest in the relationship between global health security and social justice Comprised of two major sections the book examines the various representations of knowledge about the H5N1 virus The first part explores the three major narratives that were used to describe the virus during its 20 year journey from 1996 to 2016 During this time the virus multiplied its ontological status through narratives that described a localized animal virus a global public health crisis and finally an irrational contagion fear The text s second section describes in detail a unique aspect of the H5N1 virus s journey as an emerging infectious disease its representation as a potential weapon for bioterrorists As a result the US government attempted to secure knowledge about the H5N1 virus This attempt produced a global debate between scientists and policy makers over how to balance the nation state s desire for security with the life sciences tradition of openly shared research Known as the dual use dilemma this debate set up binaries of impossible reconciliation between the scientific and security communities This book argues that the H5N1 dual use dilemma obscures larger questions of justice and proposes a new concept of justice knowledge justice as an alternate more globally inclusive framework for exploring a socially just way out of the dilemma **The Bulletin** ,1995
