Myth and Fairy Tale in Contemporary Fiction Alexandra Cheira, 2023-03-28 This volume provides more sustained critical attention on the use of myth and fairy tales in contemporary fiction, both stand-alone tales and those which are embedded in the wider frame of a novel or novella. In this light, the book examines contemporary retellings of myths and fairy tales in a productive dialogue with tradition as an extended appreciation of this productive creative and theoretical dialogue. The individual chapters evince a robust variety of conceptions and approaches, all thoroughly observant of the nature and workings of the relationship between story and genre and theoretically informed by innovative critical approaches. Hence the volume demonstrates the undeniable importance of myth and fairy tales in contemporary fiction, suggesting questions for future consideration and hopefully pointing towards new texts and new critical inquiries. **Myth in the Modern Novel**

Liisa Steinby, 2023-03-20 *Myth in the Modern Novel: Imagining the Absolute* posits a twofold thesis. First, although Modernity is regarded as an era dominated by science and rational thought, it has in fact not relinquished the hold of myth, a more primitive form of thought which is difficult to reconcile with modern rationality. Second, some of the most important statements as to the reconcilability of myth and Modernity are found in the work of certain prominent novelists. This book offers a close examination of the work of eleven writers from the late eighteenth century to the beginning of the twenty-first, representing German, French, American, Czech and Swedish literature. The analyses of individual novels reveal a variety of intriguing views of myth in Modernity and offer an insight into the modernizing transformations myth has undergone when applied in the modern novel. The study shows the presence of the subconscious, the mythic layer in modern western culture and how this has been dealt with in novelistic literature. **'My Mother was the Earth, My Father was the Sky'** Nadia Majid, 2010 This study brings together three closely related aspects of Maori literature: myth, memory and identity. It examines selected novels by Witi Ihimaera and Patricia Grace in order to trace an ever-developing Maori identity that has changed

considerably over three decades of the Maori novel This book demonstrates that an investigation of the construction of identity in literature benefits from a close look at the importance of Maori mythology as well as associated cultural and individual memories Indicating that Maori fiction has become what Homi Bhabha terms a third space this book verifies the links between novel myth and memory with the help of existing research in these areas in order to assess their importance for the reinterpretation of identity The Maori novels that depict situations reflecting current issues are viewed as an experimental playground in which authors can explore a variety of solutions to tribal societal and political issues This study establishes the early novels as reinterpretations of the past and guides to the future and characterises the more recent novels as representing a move towards empowerment and pioneering that has not yet come to a conclusion **The Science**

Fiction Dimensions of Salman Rushdie Yael Maurer,2014-01-23 This book focuses on the science fictional dimensions of Rushdie s later novels Fury The Ground Beneath Her Feet Shalimar the Clown and Luka and the Fire of Life and Rushdie s first unpublished novel The Antagonist to show how the author s oeuvre moves towards a more consistent engagement with science fiction as a generic form and an ideological investment The author demonstrates how Rushdie recreates personal and national histories in a science fictional setting and mode and contends that the failure of his first novel Grimus may have led Rushdie away from SF for some time although he returns to it with a much firmer conviction and a much stronger voice in his later novels showing his commitment to this imaginative form which he describes in Fury as providing the best popular vehicle ever devised for the novel of ideas and metaphysics The science fictional mode is the most appropriate vehicle for expressing these thematic and ideological concerns and the organizing feature of Rushdie s oeuvre The author rereads the later novels in light of recent critical engagement with SF as a vehicle for reimagining national histories and as a potentially subversive tool for social and political engagement in a fictional realm **Impending Inquisitions in Humanities and Sciences**

Mohan Varkolu,MP Mallesh,Kranthi Priya Oruganti,2024-07-22 In an era of increasing specialization the need for cross disciplinary dialogue demands an integrated approach that transcends the artificial boundaries between disciplines Impending Inquisitions in Humanities and Sciences presents a groundbreaking tapestry of cutting edge research across the spectrum of humanities and sciences This volume presents a meticulously curated selection of research papers presented at the conference a forum where scholars from diverse fields English Mathematics Physics and Chemistry converged to engage in rigorous dialogue and push the boundaries of knowledge From the nuanced interpretations of literary texts to the elegant formulations of mathematical models from the awe inspiring revelations of physics to the meticulous experiments of chemistry each contribution challenges assumptions and provokes fresh perspectives This collection serves as a valuable resource for scholars students and academic fraternity with an insatiable curiosity about the world around us

Performance and Performativity in Contemporary Indian Fiction in English Maria-Sabina Draga Alexandru, 2015-02-04 This book starts with a consideration of a 1997 issue of the New Yorker that celebrated fifty years of Indian independence and goes on to explore the development of a pattern of performance and performativity in contemporary Indian fiction in English Salman Rushdie Arundhati Roy and Vikram Chandra Such fiction which constructs identity through performative acts is built around a nomadic understanding of the self and implies an evolution of narrative language towards performativity whereby the text itself becomes nomadic A comparison with theatrical performance Peter Brook's Mahabharata and Girish Karnad's theatre of roots serves to support the argument that in both theatre and fiction the concepts of performance and performativity transform classical Indian mythic poetics In the mythic symbiosis of performance and storytelling in Indian tradition within a cyclical pattern of estrangement from and return to the motherland and/or its traditions myth becomes a liberating space of consciousness where rigid categories and boundaries are transcended
