Medievalism and Reception Dr Ellie Crookes, Ika Willis, Ellie Crookes, 2024-12-03. The relationship between medievalism and reception explored via a rich variety of case studies. At the intersection of the twin fields of medievalism and reception studies is the timely and fascinating question of how a contested past is deployed in the context of a conflicted and contradictory present. Despite their shared roots and a fundamental orientation towards the entanglement of past and present, the term reception is rarely taken up in medievalist scholarship and they have developed along parallel but divergent lines, evolving their own emphases, problematics, sensibilities, vocabularies, and critical tools. This book is the first to reunite these two fields. Its introduction and first chapter clearly set out their tangled intellectual and disciplinary histories. The ten essays that follow reflect upon the relationship between medievalism and reception in theory and in practice through thematically, temporally, and geographically expansive case studies engaging with theories of translation, postcolonialism, fan studies, persona studies, and Indigenous studies. Individual topics examined include the cultural impact of Robin Hood, the Tulsa race massacre, the crusades in the nineteenth century, later representations of Chaucer's works, Victorian representations of Anne Boleyn, and media such as Star Wars and Game of Thrones. As a whole, this collection models and demonstrates the value of a new and self-aware approach to medievalism, enriched by a conscious and critical redeployment of reception theories and methodologies.
