The Sleeper Must Awaken Jean Erasmus, 2007-09 The human condition is a strange one at best Finding ourselves in a world nearly void of any profound natural predators with the ability to unconditionally love and solve the most complex problems in the most creative ways we choose to make the world an ever increasingly dangerous place in stead of creating Utopia In our relentless pursuit of happiness and perfection we create the very opposite The Sleeper Must Awaken dives deep into the human psyche exploring from the archetypal dreamscapes of our subconscious minds to the remarkable similarities between Super String Theory and ancient mysticism It opens the door to a journey within ourselves searching for the root of this phenomenon and presenting possible solutions to a world on the edge

Author Bio Dr Jean Erasmus is a South African born medical practitioner Before moving to the United Kingdom he has worked mostly with less fortunate souls managing a wide variety of illnesses ranging from Tuberculosis to HIV AIDS He has also been involved in medical legal work as well as lecturing in Primary Health Care The world of medicine where cold evidence based science intermingles with the warm complex emotional and spiritual human being has sparked an interest in Jean leading him to pursue the connection between these two diverse poles of the human condition This pursuit offset by the dramatically changing physical social and spiritual landscape of the world led him into writing this book in an attempt to finding the missing piece of the current human led world puzzle and to present possible solutions

DMT: The Spirit Molecule Rick Strassman, 2000-12-01 A clinical psychiatrist explores the effects of DMT one of the most powerful psychedelics known A behind the scenes look at the cutting edge of psychedelic research Provides a unique scientific explanation for the phenomenon of alien abduction experiences From 1990 to 1995 Dr Rick Strassman conducted U S Government approved and funded clinical research at the University of New Mexico in which he injected sixty volunteers with DMT one of the most powerful psychedelics known His detailed account of those sessions is an extraordinarily riveting inquiry into the nature of the human mind and the therapeutic potential of psychedelics DMT a plant derived chemical found in the psychedelic Amazon brew ayahuasca is also manufactured by the human brain In Strassman s volunteers it consistently produced near death and mystical experiences Many reported convincing encounters with intelligent nonhuman presences aliens angels and spirits Nearly all felt that the sessions were among the most profound experiences of their lives Strassman s research connects DMT with the pineal gland considered by Hindus to be the site of the seventh chakra and by Rene Descartes to be the seat of the soul DMT The Spirit Molecule makes the bold case that DMT naturally released by the pineal gland facilitates the soul s movement in and out of the body and is an integral part of the birth and death experiences as well as the highest states of meditation and even sexual transcendence Strassman also believes that alien abduction experiences are brought on by accidental releases of DMT If

used wisely DMT could trigger a period of remarkable progress in the scientific exploration of the most mystical regions of the human mind and soul
