Laughter Literature Violence 1840 1930 investigates the strange complex even paradoxical relationship between laughter on the one hand and violence war horror death on the other It does so in relation to philosophy politics and key nineteenth and twentieth century literary texts by Edgar Allan Poe Edmund Gosse Wyndham Lewis and Katherine Mansfield texts which explore the far reaches of Schadenfreude and so called superiority theories of laughter pushing these theories to breaking point In these literary texts the violent superiority often ascribed to laughter is seen as radically unstable co existing with its opposite an anarchic sense of equality Laughter humour and comedy are slippery duplicitous ambivalent self contradictory hybrids fusing apparently discordant elements Now and then though literary and philosophical texts also dream of a different kind of laughter one which reaches beyond its alloys a transcendent perfect laughter which exists only in and for itself
