The Last Forest The Amazon In The Age Of Globalization:

The Last Forest Mark London, Brian Kelly, 2007 Sample Text *Introduction Globalization: Analysis and Readings* Richard W. Mansbach, Edward Rhodes, 2012-08-23 This text covers the hot topics and perspectives of globalization and frames the readings with clear substantial and original analysis by a pair of preeminent scholars *The Last Forest* Mark London, Brian Kelly, 2007 Sample Text *The Amazonian "Other"* Aleksandra Wierucka, 2024-08-07 This book explores representations of Amazonian Indigenous peoples in contemporary cultural texts It analyzes a variety of mediums from novels and films to games and exhibitions uncovering a distorted image of Indigenous peoples of the Amazon in Euro American common imagination The author suggests that these texts rely on a stereotypical vision that was shaped in the first decades of colonization The chapters consider the formation of the image of Amazonian Indigenous people throughout history and some of the contemporary issues they face touching on daily life and themes such as shamanism and cannibalism Together they highlight the misrepresented image of Indigenous groups in the Amazon who are portrayed as different even strange in relation to Western culture The argument put forward is that both exotic and self exoticization rely on the notion of otherness leading to romanticization patronization and caricature The book will be of particular interest to scholars of Indigenous studies Latin American studies cultural studies anthropology and comparative literature Frontier Making in the Amazon Antonio Augusto Rossotto Ioris, 2020-01-21 This book discusses the outcomes of more than ten years of research in the southern tracts of the Amazon region and addresses the expansion of the agricultural frontier consolidation of the agribusiness based economy and expansion of regional infrastructure roads dams urban centres etc It combines extensive empirical evidence with the international literature on frontier making and regional Amazonian development and adopts a critical politico geographical perspective that will benefit scholars in various other disciplines This book is intended to push the current theoretical and methodological boundaries regarding the controversies and impacts of agribusiness in the region A new international scientific network led by the author is investigating the broader context of the themes analysed here

Forests James Fargo Balliett, 2014-12-18 Forests are considered the lungs of the planet as they consume and store carbon dioxide and produce oxygen These biomes defined as ecological communities dominated by long lived woody vegetation historically have provided an economic foundation for growing nations supplying wood for buildings firewood for fuel and land for expanding cities and farms For centuries industrial nations in Europe and the United States have relied on large tracts of forestland for economic prosperity The research presented in this book reveals that population pressures are causing considerable environmental distress in even the most remote forest areas Three detailed case studies are presented The first provides an assessment of illegal logging deep in South America's Amazon rain forest a region closely tied to food and product demands thousands of miles away The second examines the effect of increased hunting in Central Africa's Congo forest which threatens wildlife especially mammal species with slower reproductive cycles Finally the third describes

encroachment on old growth tropical forests on the Southern Pacific island of Borneo which today is better managed thanks to the collective planning and conservation efforts of the governments of Brunei Indonesia and Malaysia **Routledge**

International Handbook of Green Criminology Nigel South, Avi Brisman, 2013-08-29 Academic and general interest in environmental crimes harms and threats as well as in environmental legislation and regulation has grown sharply in recent years The Routledge International Handbook of Green Criminology is the most in depth and comprehensive volume on these issues to date With contributions from leading international green criminologists and scholars in related fields the Handbook examines a wide range of substantive issues including climate change corporate criminality and impacts on the environment environmental justice media representations pollution e g air water questions of responsibility and risk wildlife trafficking The chapters explore green criminology in depth its theory history and development as well as methodological concerns for this area of academic interest With examples of environmental crimes harms and threats from Africa Asia Australia Eastern Europe South America the United Kingdom and the United States this book will serve as a vital resource for international scholars and students in criminology sociology law and socio legal studies as well as environmental science environmental studies politics and international relations Amazonian Geographies Jacqueline Vadjunec, Marianne Schmink, 2014-07-16

Amazonia exists in our imagination as well as on the ground It is a mysterious and powerful construct in our psyches yet shares multiple trans national borders and diverse ecological and cultural landscapes It is often presented as a seemingly homogeneous place a lush tropical jungle teeming with exotic wildlife and plant diversity as well as the various indigenous populations that inhabit the region Yet since Conquest Amazonia has been linked to the global market and after a long and varied history of colonization and development projects Amazonia is peopled by many distinct cultural groups who remain largely invisible to the outside world despite their increasing integration into global markets and global politics Millions of rubber tappers neo native groups peasants river dwellers and urban residents continue to shape and re shape the cultural landscape as they adapt their livelihood practices and political strategies in response to changing markets and shifting linkages with political and economic actors at local regional national and international levels This book explores the diversity of changing identities and cultural landscapes emerging in different corners of this rapidly changing region This book was published as a special issue of the Journal of Cultural Geography *The Throes of Democracy* Doctor Bryan

McCann, 2013-04-04 In the 1980s Brazil emerged from two decades of military dictatorship and embarked on an experiment in full democracy for the first time in the nation s history Since then Brazilians have sought to live up to the ideals of this experiment while negotiating dramatic economic and cultural transformations In *The Throes of Democracy* Bryan McCann gives a panoramic view of this process exploring the relationships between the rise of the political left the escalation of urban violence the agribusiness boom and the spread of pentecostal evangelization Brazil remains a land marked by deep inequality but in the last two decades the structure of that inequality has changed substantially This is a country which remains an

endlessly vital source of popular culture now bubbling forth from different corners of the map In explaining these transformations this book provides a fascinating introduction to one of the 21st century s most significant countries

Conflicts over Natural Resources in the Global South Maarten Bavinck,Lorenzo Pellegrini,Erik Mostert,2014-01-15
Inhabitants of poor rural areas in the Global South heavily depend on natural resources in their immediate vicinity Conflicts over and exploitation of these resources whether it is water fish wood fuel minerals or land severely affect their livelihoods The contributors to this volume leave behind the polarised debate previously surround
