21st Century Media and Female Mental Health Fredrika Thelandersson, 2022-10-22 This open access book examines the conversations around gendered mental health in contemporary Western media culture While early 21st century media was marked by a distinct focus on happiness productivity and success during the 2010s negative feelings and discussions around mental health have become increasingly common in that same media landscape This book traces this turn to sadness in women's media culture and shows that it emerged indirectly as a result of a culture overtly focused on happiness By tracing the coverage of mental health issues in magazines among female celebrities and on social media this book shows how an increasingly intimate media environment has made way for a profitable vulnerability that takes the shape of marketable and brand friendly mental illness awareness that strengthens the authenticity of those who embrace it But at the same time sad girl cultures are proliferating on social media platforms creating radically honest spaces where those who suffer get support and more capacious ways of feeling bad are formed Using discourse analysis and digital ethnography to study contemporary representations of mental illness and sadness in Western popular media and social media this book takes a feminist media studies approach to popular discourse understanding the conversations happening around mental health in these sites to function as scripts for how to think about and experience mental illness and sadness **Women's Club**

specificity of the urban refugee as well as their spatial agency and investigates the irreversible effect they have on the contemporary urban condition. The authors argue that viewing urban refugees solely as dislocated individuals outside the camp-like spaces of containment fails to understand the agency of the urban refugee and the blurred boundaries of identity that result. The term refugee crisis objectifies and denies active agency to refugees, homogenizing dislocated individuals and groups. The neoliberalization of the past four decades has led to the precarization of labour and the displacement of refugees who frequently blend into the urban environment as hidden populations. Refugees are subjected to constant surveillance and the state's attempts to control them. However, these attempts are not uncontested, and the involvement of activist interventions further politicizes the urban refugee.

Superheroes in the Streets Kimberly Wedeven Segall, 2024-03-26 The icon of the female protester and her alter ego, the female superhero, fills screens in the news, in theaters, and in digital spaces. The female protester who is Muslim, though, has been subject to a legacy of discrimination. *Superheroes in the Streets: Muslim Women Activists and Protest in the Digital Age* follows the stories of both famous and grassroots Muslim female protestors, bringing careful attention to protest modes and online national icons. US Muslim women have long navigated public and digital spaces aware of the complex and nuanced histories that trail them. Given the pervasive influence of mainstream feminism, Muslim women activists are often made out to be damsels in distress. Even when mass media turns its attention to the activism of Muslim women, persistence of these false narratives demeans their culture and hypersexualizes their bodies. Following the stories of US Muslim women activists, author Kimberly Wedeven Segall shows how they have been reinventing the streets and remaking racialized codifications. Segall highlights their creativity in crafting protest media of posters, rap, rally songs, and digital images of superheroes carving public spaces into inclusive and digital territories. Each chapter teases apart the complexities of public banners and digital activism.

Crow Investigations: Books 1 & 2 Sarah Painter, Discover the new star of magical London with the first two books in the bestselling *Crow Investigations* urban fantasy mystery series. Omnibus edition includes *The Night Raven* and *The Silver Mark*. Book 1: *The Night Raven*. Meet Lydia Crow. Lydia has always known she has no power, especially next to her infamous and more than slightly dodgy family. Which is why she carved her own life as a private investigator far away from London. When a professional blunder forces her home, the head of the family calls in a favour, and Lydia finds herself investigating the disappearance of her cousin Maddie. Soon Lydia is neck-deep in problems; her new flatmate is a homicidal ghost, the intriguing but forbidden DCI Fleet is acting in a distinctly unprofessional manner, and tensions between the old magical families are rising. The Crows used to rule the roost, and rumours claim they are still the strongest. The Silvers have a facility for lying, and they run the finest law firm in London. The Pearl family were costermongers, and everybody knows that a Pearlie can sell feathers to a bird. The Fox family? Well, the less said about the Fox family, the better. For seventy-five years, a truce between the four families has held strong, but could the disappearance of Maddie Crow be the thing to break it? Book 2: *The Silver Mark*. London is Lydia Crow's city, so when a man is found hanged
