Social Reading Cultures on BookTube, Bookstagram, and BookTok Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube Bookstagram and BookTok as an increasingly important influence on contemporary book and literary culture It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices bookish social media has elevated the agency and visibility of readers and book consumers within literary culture It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture Concise and accessible this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature sociology media and cultural studies as well as teachers and professionals in the book and library industries *Digital Expressions of the Self(ie)* Avishek Ray, Ethiraj Gabriel Dattatreyan, Usha Raman, Martin Web, Neha Gupta, Sai Amulya Komarraju, Anuja Premika, Riad Azam, Farhat Salim, Pranavesh Subramanian, 2024-02-06 The book examines the social and cultural role of selfies in India It looks at how the selfie unlike the photograph which was a gesture towards an external reality remains intimately self referential yet reconfigures social ordering identity formation agency and spaces in curious ways This volume approaches questions about the construction and performance of the self through the digital selfie and uses this situated contextualized and culturally specific phenomenon as a site to explore the themes of self making place making gender subjectivity and power Highlighting the specific contexts of production the authors examine the array of self expressive capabilities realized in a multitude of uses of the selfie that simultaneously reconfigure the self the space and the world An important study of visual social media culture the volume will be useful for interpreting everyday media experiences and will be of interest to students and researchers of image studies visual studies photography studies visual culture media studies culture studies cultural anthropology digital humanities popular culture sociology of technology and South Asian studies **Filterworld** Kyle Chayka, 2025-01-21 From New Yorker staff writer and author of *The Longing for Less* Kyle Chayka comes a timely history and investigation of a world ruled by algorithms which determine the shape of culture itself From trendy restaurants to city grids to TikTok and Netflix feeds the world round algorithmic recommendations dictate our experiences and choices The algorithm is present in the familiar neon signs and exposed brick of Internet cafes be it in Nairobi or Portland and the skeletal modern furniture of Airbnbs in cities big and small Over the last decade this network of mathematically determined decisions has taken over almost unnoticed informing the songs we listen to the friends with whom we stay in touch as we ve grown increasingly accustomed to our insipid new normal This ever tightening web woven by algorithms is called Filterworld

Kyle Chayka shows us how online and offline spaces alike have been engineered for seamless consumption becoming a source of pervasive anxiety in the process. Users of technology have been forced to contend with data driven equations that try to anticipate their desires and often get them wrong. What results is a state of docility that allows tech companies to curtail human experiences, human lives for profit. But to have our tastes, behaviors and emotions governed by computers while convenient does nothing short of call the very notion of free will into question. In *Filterworld*, Chayka traces this creeping machine guided curation as it infiltrates the furthest reaches of our digital, physical and psychological spaces. With algorithms increasingly influencing not just what culture we consume but what culture is produced, urgent questions arise: What happens when shareability supersedes messiness, innovation and creativity, the qualities that make us human? What does it mean to make a choice when the options have been so carefully arranged for us? Is personal freedom possible on the Internet? To the last question, *Filterworld* argues yes, but to escape *Filterworld* and even transcend it, we must first understand it.
