The Norton Introduction To Literature Shorter Eleventh Edition:

Charlotte Perkins Gilman's "The Yellow Wall-paper" and the History of Its Publication and Reception Julie Bates Dock, 1998-02-27 Since its publication in 1892 Charlotte Perkins Gilman's *The Yellow Wall paper* has always been recognized as a powerful statement about the victimization of a woman whose neurasthenic condition is completely misdiagnosed mistreated and misunderstood leaving her to face insanity alone as a prisoner in her own bedroom Never before however has the story itself been portrayed as victimized In this first critical edition of Gilman's *The Yellow Wall paper* accompanied by contemporary reviews and previously unpublished letters Julie Bates Dock examines the various myth frames that have been used to legitimize Gilman's story The editor discusses how modern feminist critics readings and misreadings of the available documents uphold a set of legends that originated with Gilman herself and that promulgate an almost saintly view of the pioneering feminist author The documents made available in the collection enable scholars and students to evaluate firsthand Gilman's claims regarding the story's impact on its first audiences Dock presents an authoritative text of *The Yellow Wall paper* for the first time since its initial publication Included are a textual commentary full descriptions of all relevant texts lists of editorial emendations and pre copy text substantive variants a complete historical collation that documents all the variants found in important editions after 1892 and a listing of textual sources for more than one hundred reprintings of the story in anthologies and textbooks Other documents in the casebook that illuminate the story's publication and reception histories include Gilman's successive and varying accounts of the story's history her diary and manuscript log entries and letters pertaining to the story W D Howells's correspondence with Gilman and Horace Scudder editor of *The Atlantic Monthly* and his remarks on the story when he reprinted it in *Great American Short Stories* and more than two dozen reviews of the story by Gilman's contemporaries Taken together the criticism text documents and annotations constitute a rich and valuable contribution to Gilman scholarship calling into question the feminist literary criticism that has helped to shape interpretations of a literary masterpiece *Chicorel Index to Short Stories in Anthologies and Collections* Marietta

Chicorel, 1974 *Access to the humanities* Raffaella Picello, 2019-03-01 Everyday Magic Laurie Ricou, 2011-11-01 Child language is a subject in which everyone is an expert All parents study their children's language carefully if undeliberately and every family has its precious memories of the unique verbal improvisations of childhood For writers who continually struggle with and revel in the mysteries of language the language of children holds a special attraction *Everyday Magic* looks at the way Canadian writers have written through as distinct from for or about children at the ways they have used child language and children's models of perception to achieve various literary effects It describes how texts might be shaped by child usage and speculates that adult artists often find themselves surprised and informed by the child language they seek to create Ricou examines how the distinctive features of child language described by psycholinguists intersect with the written languages used by writers to suggest not only a child language but also the way a child sees and organizes an understanding

of the world The book s subtitle putting the term child language into the plural points out that not one but many written interpretations of the child s perspectives are possible In order to emphasize this plurality and indicate that there are any number of child languages the author has organized his study as a series of closely related essays Each chapter considers the work of a Canadian author or authors with the book as a whole moving from the more conventional writers to those who step outside the bounds of convention Ricou proposes analogies with Wordsworth and Dylan Thomas Proust and Dickens but he finds his principal subject in the inherent interest of for example the Piagetian scheme that W O Mitchell seems to adopt in Who Has Seen the Wind the obsessions with similes in Ernest Buckler the variations on the Bildungsroman in Margaret Laurence and Alice Munro and the persistent experiments with presymbolic language in bill bissett For these and other writers such as Clark Blaise Emily Carr Dennis Lee Dorothy Livesay P K Page James Reaney and Miriam Waddington Ricou illuminates the particular literary languages appropriate to each author s subject The result is a fascinating and unique approach to Canadian literature

Biography: A Very Short Introduction Hermione Lee,2009-07-09 Biographies are one of the most popular and best selling of the literary genres Why do people like them What does a biography do and how does it work This Very Short Introduction examines different types of biographies why certain people and historical events arouse so much interest and how they are compared with history and fiction *Paperbound Books in Print* ,1982 **The Geographies of African American Short**

Fiction Kenton Rambsy,2022-03-25 Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives The Geographies of African American Short Fiction seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations small towns a famous metropolis city sidewalks a rural wooded area apartment buildings a pond a general store a prison and more In the process these writers highlighted the extents to which places and spaces shaped or situated racial representations Presenting African American short story writers as cultural cartographers author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century Anthology editors solidified the significance of a core group of short story authors including James Baldwin Toni Cade Bambara Charles Chesnutt Ralph Ellison Zora Neale Hurston and Richard Wright Using quantitative information and an extensive literary dataset The Geographies of African American Short Fiction explores how editorial practices shaped the canon of African American short fiction
