Hart, Shirley Diane Gregor, 2007-11-01. This volume contains the papers presented at the third biennial Information Systems Foundations Theory Representation and Reality Workshop held at The Australian National University in Canberra from 27-28 September 2006. The focus of the workshop was as for the others in the series: the foundations of Information Systems as an academic discipline. The particular emphasis was as in past workshops: the adequacy and completeness of theoretical underpinnings and the research methods employed. At the same time, the practical nature of the applications and phenomena with which the discipline deals were kept firmly in view. Accordingly, the papers in this volume range from the unashamedly theoretical to their focus: Designing for Mutability in Information Systems Artifacts Towards a Unified Theory of Fit Task Technology and Individual to the much more practically oriented An Action Centred Approach to Conceptualising Information Support for Routine Work. Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1971. **The British National Bibliography** Arthur James Wells, 2006. *Subject Guide to Books in Print*, 1984.
