The Nature Of Historical Explanation:

The Nature of Historical Explanation Patrick Gardiner, 1952 *The Nature of Historical Explanation* Patrick L. Gardiner, 1985 Gardiner approaches the idea of a philosophy of history by first giving an outline of the regularity interpretation of explanation How far it is possible to regard all historical explanations or even some as approximating this pattern how far the objections philosophers have marshalled against such an assimilation are justified how far the alternative interpretations suggested correspond to the historian's actual procedure in certain cases these represent the kind of questions that will have to be considered By keeping the actual practice of historians constantly in view he believes that the reader will be able to see some of the disputes that have raged concerning the philosophy of history in better perspective

The Nature of Historical Explanation Patrick Gardiner, 1978 The Nature of Historical Explanation Historical Explanation Patrick Gardiner, 1968 *The Nature of Historical Explanation* Patrick Gairdner, 1958 **Logic of Historical Explanation** Clayton Roberts, 2010-11-01 **The Nature of History Reader** Keith Jenkins, Alun Munslow, 2004 The question of what the nature of history is is a key issue for all students of history It is recognized by many that the past and history are different phenomena and that the way the past is actively historicized can be highly problematic and contested

The Nature of Historical Explanation Gardiner Patrick, 1965 **Historical Explanation** Gunnar Schumann, 2023-11-14 This book is concerned with the appropriate form of explanations in historiography and the social sciences It combines action theory and philosophy of historiography and develops a theory of teleological explanations of human actions based on late Wittgensteinian and Ordinary Language Philosophy insights In philosophy of action many philosophers favor causal theories of human action Additionally in current philosophy of historiography the majority view is that historians should explain historical phenomena by their causes This book pushes back against these mainstream views by reviving an anti causal view of explanation of current and past human actions The author argues that disciplines that deal with human actions require a certain form of explanation namely a teleological or intentional explanation This means that past human actions and their results will have to be explained by reasons of agents not by causes Therefore historiography employs a method of explanation which is in stark contrast to the sciences The author thus proposes a Verstehen understanding approach in historiography and the social sciences Historical Explanation will be of interest to scholars and advanced students working in philosophy of action philosophy of history and philosophy of the social sciences **The Nature of Explanation in Social Sciences** Rajesh Ranjan Tiwari, 2023-07-07 This book provides a comprehensive overview of the nature of explanations as given in both natural and social sciences It discusses models of explanation adopted in natural and social sciences The author also elaborates upon naturalistic and anti naturalistic views and other types of explanations such as functional purposive etc in social science The volume elaborates upon themes like bridge principle functional explanation purposive explanation teleological explanation prediction methodological individualism methodological

collectivism illocutionary redescription principle of action and dispositional explanations to understand whether the explanations given in the realm of social sciences are the same or different from the explanations that are given in the field of natural sciences This introductory book is a must read for students and scholars of philosophy of science logic science and technology studies social sciences and philosophy in general
