

"The brilliant, 'no-fault classroom' concept could create a cultural tsunami, revolutionizing the comparison-based identity culture of our schools today. A must read for all educators!"

— Stephen R. Covey, author, *The 7 Habits of Highly Effective People* and *The 8th Habit: From Effectiveness to Greatness*

The background of the cover features a photograph of two children's arms reaching up from the left and right sides, with their hands meeting at the top to form a triangle. The children are wearing white shirts with dark blue sleeves. Below the title, two wooden desks are visible. The desk on the left has a white paper with the word 'SCHOOL' written on it. The desk on the right has a colorful, abstract artwork on it.

possibilities and find answers for themselves dialogue with teachers regarding their higher purpose for teaching uncover teachers natural impulse to engage with colleagues and students assist teachers to draw up a personal blueprint for professional mastery support teachers in brainstorming and trying new ways of doing things maintain an upbeat energetic and positive attitude at all times collaborate with teachers to design and conduct appropriate learning experiments enable teachers to build supportive environments and teams use humor to lighten the load and inspire and challenge teachers to go beyond what they would do alone Each chapter provides a research based theory to support the strategies presented and includes specific suggestions and anecdotes The Evocative Coaching model makes coaching enjoyable by getting people to focus on what they do best and it invites larger more integral conversations so that people talk about their work in the context of other things they care about Resting on strong evidence based practices the Evocative Coaching model offers educators the help they need to meet the challenges of increased accountability and expectations This model can also be used effectively by coaches and leaders in other organizational contexts
