Melissa Anyiwo, Amanda Hobson, 2019-01-14 Gender Warriors Reading Contemporary Urban Fantasy offers classroom ready original essays outlining contemporary debates about sexual objectification and gender norms in urban fantasy and examining how those cultural categories are reinforced and unraveled The essays explore the foundations and evolutions of urban fantasy and presentations of gendered identities in a wide variety of sources focusing not only on popular examples such as Buffy the Vampire Slayer and Underworld but also on less studied works for instance Penny Dreadful and Anita Blake The authors address the sociocultural institutions that bind gender to the body and shape our views of gendered norms inviting students of all experience levels to engage in interdisciplinary conversations about both theoretical and embodied constructions of gender and the production of genre and generic conventions The text unpacks cultural norms of gender and addresses issues of identity construction within an endlessly evolving genre This collection demonstrates the way that representations of gender and the kick ass female urban fantasy warrior have upended and reinforced a broad range of expectations and tropes making it a fascinating text for any course such as first year studies literature film gender studies sociology cultural studies history and more **George Gissing, the Working Woman, and Urban Culture** Emma Liggins, 2017-09-29 George Gissing s work reflects his observations of fin de si cle London life Influenced by the French naturalist school his realist representations of urban culture testify to the significance of the city for the development of new class and gender identities particularly for women Liggins s study which considers standard texts such as The Odd Women New Grub Street and The Nether World as well as lesser known short works examines Gissing s fiction in relation to the formation of these new identities focusing specifically on debates about the working woman From the 1880s onward a new

genre of urban fiction increasingly focused on work as a key aspect of the modern woman's identity elements of which were developed in the New Woman fiction of the 1890s Showing his fascination with the working woman and her narrative potential Gissing portrays women from a wide variety of occupations ranging from factory girls actresses prostitutes and shop girls to writers teachers clerks and musicians Liggins argues that by placing the working woman at the center of his narratives rather than at the margins Gissing made an important contribution to the development of urban fiction which increasingly reflected current debates about women's presence in the city Ordinary Cities Jennifer Robinson,2013-07-04 With the urbanization of the world's population proceeding apace and the equally rapid urbanization of poverty urban theory has an urgent challenge to meet if it is to remain relevant to the majority of cities and their populations many of which are outside the West This groundbreaking book establishes a new framework for urban development It makes the argument that all cities are best understood as ordinary and crosses the longstanding divide in urban scholarship and urban policy between Western and other cities especially those labelled Third World It considers the two framing axes of urban modernity and development and argues that if cities are to be imagined in equitable and creative ways urban theory must overcome these axes with their Western bias and that resources must become at least as cosmopolitan as cities themselves Tracking paths across previously separate literatures and debates this innovative book a postcolonial critique of urban studies traces the outlines of a cosmopolitan approach to cities drawing on evidence from Rio Johannesburg Lusaka and Kuala Lumpur Key urban scholars and debates from Simmel Benjamin and the Chicago School to Global and World Cities theories are explored together with anthropological and developmentalist accounts of poorer cities Offering an alternative approach Ordinary Cities skilfully brings together theories of urban development for students and researchers of urban studies geography and development **Global Trends** Diego J. effects of space and new patterns of urban production play a shaping role in which music takes on new forms and functions with representation playing a significant but not always decisive role While music scholars increasingly concern themselves with place Krims theorizes it together with the shaping role of space Pushing urban geography into new cultural contexts Music and Urban Geography will offer those concerned with the social effects of space new theoretical models Ranging from Anonymous 4 to Alanis Morissette from Curacao to Seattle this text presents a truly wide ranging interdisciplinary and theoretically ambitious view of both musical and urban change

Hu, 2003-06-01 This is the first major work on pre 1949 Chinese cinema in English As such it represents a major contribution to existing discussions of both Chinese cinema and national cinema and is an indispensable basic resource for scholars interested in Chinese film history The book analyses the wide variety of conceptions of Chinese national cinema between the early years of the 20th century and 1949 and contrasts these to conceptions of national cinema in Europe and China After years of exhausting primary historical research the author has been able to bring to light sources hitherto not widely available The author argues that questions and debates about the status and meaning of the national in Chinese national cinema are central to any consideration of cinema during this period and addresses the issue of Chinese nationalism as part of a complex history of cinema within the early modern Chinese nation

Out of the USSR Eva Hausbacher, Viola Parente-Čapková, Arja Rosenholm, Marja Anneli Sorvari, 2025-08-04 This book examines how women authors recall their own and their families past lives after having emigrated from the Soviet Union in the 1990s and how they reflect on their new country of residence be it Germany Austria Israel USA or Finland among others The chapters connect migration memory and gender studies to analyse literary presentations created by these travelling women The aim of the book is to pay attention both to women s contribution to cultural transfer and to the mobility of memories for the first time it brings women s narratives as a form and tool to work

through both individual and collective traumas to the forefront remedying a long standing omission in Russian and post Soviet migration history At the same time the volume looks at travelling memories and cultural traumas from a gendered perspective what happens when the recollections of women s traumatic experiences of Soviet history travel through time and space As this volume argues narratives by women who left the Soviet Union often call into question official accounts of Soviet history and rewrite them in a way that makes room for gendered lived experience
