The Hensley Legacy Tracey Chapman, 2024-06-21 Stephen Muscat a mechanic and his wife Lisa lived a simple yet fulfilling life on the island of Gozo where they raised their beloved daughter Ava Surrounded by love and cherished by her parents Ava enjoyed an idyllic childhood before moving to Malta where she found contentment in the gentle rhythm of life that enveloped her However the tranquillity of a Maltese seaside town is disrupted when a mysterious Canadian man Mark Wheeler arrives asking questions about a local resident His presence sparks curiosity and idle gossip among the townspeople Unbeknownst to them Mark is an heir hunter who has travelled to Malta on a mission to trace the heir to a substantial Canadian fortune left by the recently deceased Florence Hensley As Mark delves deeper into his investigation he begins to unravel a thirty year old mystery surrounding the loss of a child a tragedy that brought immense devastation to a family Little does Ava know that her life is about to change forever as the secrets of the past collide with the present and her connection to the Hensley fortune is revealed

Murder in the Map Room Benny Tolson, The grand halls of Ashcombe Manor have seen their share of secrets but none so deadly as the one discovered in its fabled Map Room When historian Dr Leonard Briggs is found dead slumped across a centuries old chart with a dagger in his back the case seems as baffling as it is brutal Every guest at the manor had reason to want him silenced from rival academics to family members with too much to lose Detective Clara Hensley is called in to untangle the puzzle But the deeper she ventures into the manor's hidden passages and forgotten records the more she realises that the murder is only part of a larger game one that someone has been planning for a very long time As storm clouds gather outside and the suspects close ranks within Clara must solve the riddle etched in the maps before the killer strikes again Atmospheric clever and brimming with intrigue **Murder in the Map Room** is a mystery that proves the past is never really past and some secrets are worth killing for

Education for Extinction David Wallace Adams, 2020-06-10 The last Indian War was

fought against Native American children in the dormitories and classrooms of government boarding schools Only by removing Indian children from their homes for extended periods of time policymakers reasoned could white civilization take root while childhood memories of savagism gradually faded to the point of extinction In the words of one official Kill the Indian and save the man This fully revised edition of Education for Extinction offers the only comprehensive account of this dispiriting effort and incorporates the last twenty five years of scholarship Much more than a study of federal Indian policy this book vividly details the day to day experiences of Indian youth living in a total institution designed to reconstruct them both psychologically and culturally The assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages Victorian gender rituals football contests and industrial training Especially poignant is Adams s description of the ways in which students resisted or accommodated themselves to forced assimilation Many converted to varying degrees but others plotted escapes committed arson and devised ingenious strategies of passive resistance Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender This is especially apparent in his analysis of students who returned to the reservation He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men The discussion comes full circle when Adams reviews the government s gradual retreat from the assimilationist vision Partly because of persistent student resistance but also partly because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less enthusiastically Based upon extensive use of government archives Indian and teacher autobiographies and school newspapers Adams s moving account is essential reading for scholars and general readers alike interested in Western history Native American studies American race relations education history and multiculturalism Department of Commerce Appropriations for 1951 United States. for millennia Mountain Blind J. L. Bean, 2025-05-01 Hensley Presley lost her sight at the age of fifteen due to a virus. Despite this setback, she has learned to navigate life's challenges with remarkable self-taught independence. Fortunately, thanks to Dr. Pierce, she may have the opportunity to regain her vision. However, her journey takes a tragic turn when her plane crashes into the mountainside during one of the worst snowstorms in history, leaving Hensley as the sole survivor. On that fateful day, she is ultimately rescued for a second time by Duke, a rugged mountain man who has also endured his share of heartbreak following the tragic loss of his wife and newborn son. This loss is the reason he has chosen to live alone in the mountains. Together, Hensley and Duke discover a profound love, one that seems to be sent by Duke's angels from above. This is the essence of Mountain Blind.
