Sons Of Abraham Terminate:

Abraham: The World's First Psychopath Adam Weishaupt, 2013-01-26 If you consider it impossible that the morally perfect God would order a father to make a human sacrifice of his innocent son for no reason other than to demonstrate absolute mindless obedience then the God of Abraham cannot be God So who is he The ancient Gnostics had the obvious answer he s Satan Doesn t that explain the horrific history of the Abrahamic religions and their grotesque propensity for violence Abrahamism is a terrorist religion led by a terrorist God who demands unwavering obedience even when it contradicts morality The Jews Christians and Muslims who trace their common ancestry to Abraham are thus revealed as Devil worshippers This book provides a theological dissection of the tale of Abraham from the Jewish Christian and Muslim perspectives It reveals Abraham as one of the most evil men in history and unquestionably the world s first psychopath Like the Nazis he put obedience to a tyrannical monster above human life Tractates on the Gospel of John 28-54 Saint Augustine, 1988 No description available **Future Punishment, Or, Does Death End Probation?** William Cochrane, Gustave Doré, 1886 *Your Brain's Politics* George Lakoff, Elisabeth Wehling, 2016-11-08 At first glance issues like economic inequality healthcare climate change and abortion seem unrelated However when thinking and talking about them people reliably fall into two camps conservative and liberal What explains this divide Why do conservatives and liberals hold the positions they do And what is the conceptual nature of those who decide elections commonly called the political middle The answers are profound They have to do with how our minds and brains work Political attitudes are the product of what cognitive scientists call Embodied Cognition the grounding of abstract thought in everyday world experience Clashing beliefs about how to run nations largely arise from conflicting beliefs about family life conservatives endorse a strict father and liberals a nurturant parent model So called middle voters are not in the middle at all They are morally biconceptual divided between both models and as a result highly susceptible to moral political persuasion In this brief introduction Lakoff and Wehling reveal how cognitive science research has advanced our understanding of political thought and language forcing us to revise common folk theories about the rational voter Heaven Is Not the Last Stop Sheila Keene-Lund, 2010-05 Heaven Is Not the Last Stop by Sheila Keene Lund is the first book to attempt to reconcile the cutting edge of today s metaphysics history theology and cosmology with the unprecedented teachings of The Urantia Book a 2 097 page text claiming to be a planetary revelation Keene Lund addresses this formidable challenge in four sections The first three address humanity s origin history and destiny her fourth section builds upon the universal and inspiring worldview that results from her research and offers readers an advanced framework for living a life of love and service **Angels in the Bible** George M. Smiga, Little Rock Scripture Study Staff, 2021-02-15 The Bible is full of passages in which angelic beings are sent to accomplish God s will Angels speak for God direct the course of nations and protect God s people They worship God and deliver God s judgment In *Angels in the Bible* George Smiga examines some of the Bible s most fascinating passages about

angels exploring their ministry on God's behalf and drawing insights for our own spiritual lives Because angels are mediators of God's presence and action studying angels is studying God Commentary study and reflection questions prayer and access to recorded lectures are included 6 lessons **God and Primordial People** Paul Poulton,2018-02-16 The modern world is in a position to view the divine sculptor's work as no other generation has Throughout previous generations many people believed that God created life but preceding generations were not privy to the method and manner in which he worked his modus operandi We are now in that position thanks to the fine work of archaeologists geologists paleontologists and scientists some of whom have faith in God the Big Bang Theory itself was first proposed by a Christian priest who was also a scientist This explosion of verifiable information affects the way we view the Bible God and Primordial People investigates and provides a cohesive picture of the Christian doctrine of the rise and fall of man and our salvation through Christ The book moves through each relevant step in the chain from the first primordial human beings to the world we live in today
