Paludi, 2011-10-20 This compilation of original essays does more than just illuminate the serious problem of teen violence and victimization it also provides resources that parents and teachers can use to address issues of violence with their teens and make a difference While it is widely known that hate crimes represent a serious issue among today's adolescent population most parents and perhaps even some educators may be unaware that gender based violence is the most prevalent type of hate crime committed by and experienced by teens and that adolescent girls are exposed to more violence than boys A complete understanding of the nature of the problem is fundamental to curtailing problems like cyberbullying and sexual harassment *The Psychology of Teen Violence and Victimization* is a two volume set that fills a gap in the current literature on teen violence by addressing the incidence psychological explanations and impact of all forms of teen violence The author a psychologist who has focused upon interpersonal problems centered on violence harassment and gender provides in depth discussion of the various types of violence committed by and against teens The set offers actionable prevention strategies for parents and teachers as well as individuals involved in community programs Special attention is given to the impact of violence on adolescents emotional and physical health interpersonal relationships career development and self concept

The Psychology of Teen Violence and Victimization: Prevention strategies for families and schools , 2011 This compilation of original essays does more than just illuminate the serious problem of teen violence and victimization it also provides resources that parents and teachers can use to address issues of violence with their teens and make a difference Provided by publisher *The Future of Youth Violence Prevention* Paul Boxer, Raphael Travis, Jr., 2024-12-13 *The Future of Youth Violence Prevention* A Mixtape for Practice Policy and Research focuses on innovative approaches to youth violence prevention that utilize consistent principles found within existing best practices but are dynamic and adaptable across settings and the sociohistorical and cultural realities of those settings This book features scholars anchored in applied practices who can ground these forward thinking strategies in the substantive base of research and theory that has produced successful interventions across multiple disciplines The scholarship and cutting edge thinking assembled in this volume could produce new era youth violence prevention coordinators prepared to serve in any setting including community outreach programs therapeutic group homes day reporting centers juvenile probation offices schools or clinics These coordinators will

The Psychology of Violence in Adolescent Romantic Relationships Erica Bowen, K. The Wiley Handbook on the Psychology of Violence Carlos A. Cuevas, Callie Marie Rennison, 2016-03-07 The Wiley Handbook on the Psychology of Violence features a collection of original readings from an international cast of experts that explore all major issues relating to the psychology of violence and aggressive behaviors Features original contributions from an interdisciplinary cast of scholars leading experts in their fields of study Includes the latest violence research and its implications for practice and policy Offers coverage of current issues relating to violence such as online violence and cybercriminal behavior Covers additional topics such as juvenile violence sexual violence family violence and various violence issues relating to underserved and or understudied populations

Handbook of Youth and Justice Susan O. White, 2013-11-11 When approached by Plenum to put together a volume of social science research on the topic of youth and justice I found the interdisciplinary challenge of such a project intriguing Having spent 2 years as Director of the Law and Social Science Program at the National Science Foundation I was well aware of the rich diversity of research that could fit within that topic I also knew that excellent research on youth and justice was coming from different communities of researchers who often were isolated from each other in their respective disciplines as psychologists sociologists criminologists or policy analysts I saw this project as an opportunity to break down some of this isolation by introducing these researchers and their work to each other and to the broader community of social scientists interested in law and justice There was another gap or set of gaps to be bridged as well The juvenile justice system and the criminal justice system differ in significant ways and the civil justice system which is a major venue for issues of youth and justice is yet another separate world Few researchers are likely to know the whole picture For example a focus on juvenile justice often ignores the extent to which civil justice proceedings shape the lives of young people through divorce custody adoption family preservation policies and other actions and vice versa

Advances in Psychology and Law Brian H. Bornstein, Monica K. Miller, 2019-02-05 The present volume consists of up to date review articles on topics relevant to psychology and law and will be of current interest to the field Notably the majority of these topics are currently attracting a great deal of research and public policy attention in the U S and elsewhere as evidenced by programs at the American Psychology Law Society and related conferences Topics for the present volume include attitudes toward the police Cole et al alibis Charman et al hate crimes based on gender and sexual orientation Plumm Leighton the role of gender at trial Livingston et al neuroimages in court Glen intimate partner violence Mauer Reppucci post identification feedback Douglass Smalarz and individual

differences in eyewitness identification Snowden Bornstein veterans wellbeing Berthelot Prager and plea bargaining Levett

School Violence and Primary Prevention Thomas W. Miller, 2023-01-01 This important new work covers clinical issues in treating victims of school violence and assessing children with the potential for violence The editor also examines the effectiveness of prevention intervention programs and offers larger policy recommendations The book looks at environmental factors such as cultural issues on behaviors from bullying to mass school shootings And uniquely the book delves into topics such as sexual boundaries and body image In all this book aims for a theoretical and applied picture of the current state of school violence and prevention
