Kay Boyle, Artist and Activist Sandra Whipple Spanier,1986 This first critical assessment of Kay Boyle's long career is both a portrait of the artists and a perceptive appraisal of her work Boyle has lent her cooperation and support to Spanier's efforts to gather biographical material Particularly enriching for this study were several meetings and extensive correspondence between author and critic Spanier draws on hundreds of pages of letters containing a wealth of new information about Boyle's life works literary relationships and current activities Boyle has provided Spanier with unpublished documents and works in progress yellowed news clippings and book reviews and detailed notes in which she reacted to this work Balancing her role of biographer and critic Spanier has created a vital perceptive and integrated study of the life and work of a remarkable woman From publisher's description *Scenes of Instruction* Dana Polan,2007-04-24 This engaging book chronicles the first classes on the art and industry of cinema and the colorful pioneers who taught wrote and advocated on behalf of the new art form Using extensive archival research Dana Polan looks at for example Columbia University's early classes on Photoplay Composition lectures at the New School for Social Research by famed movie historian Terry Ramsaye the film industry's sponsorship of a business course on film at Harvard and attempts by the Academy of Motion Picture Arts and Sciences to create programs of professionalized education at the University of Southern California Stanford and elsewhere Polan examines a wide range of thinkers who engaged with the new art of film from Marxist Harry Alan Potamkin to sociologist Frederic Thrasher to Great Books advocates Mortimer Adler and Mark Van Doren What America Read Gordon Hutner,2009-11-05 Despite the vigorous study of modern American fiction today's readers are only familiar with a partial shelf of a vast library Gordon Hutner describes the distorted canonized history of the twentieth century American novel as a record of modern classics insufficiently appreciated in their day but recuperated by scholars in order to shape the grand tradition of Hemingway Fitzgerald and Faulkner In presenting literary history this way Hutner argues scholars have forgotten a rich treasury of realist novels that recount the story of the American middle class's confrontation with modernity Reading these novels now offers an extraordinary opportunity to witness debates about what kind of nation America would become and what place its newly dominant middle class would have and Hutner suggests should also lead us to wonder how our own contemporary novels will be remembered **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1972 Catalog of Copyright Entries. New Series Library of Congress. Copyright Office,1940 Includes Part 1 Books Group 1 Nos 1 12 1940 1943 **Poe, Queerness, and the End of Time** Paul Christian Jones,2022-05-16 This book builds upon recent theoretical approaches that define queerness as more of a temporal orientation than a sexual one to explore how Edgar Allan Poe's literary works were frequently invested in imagining lives that contemporary readers can understand as queer as they stray outside of or aggressively reject normative life paths including heterosexual romance marriage and reproduction and emphasize individuals present desires over future plans The book's analysis of many of Poe's

best known works including *The Raven* *The Fall of the House of Usher* *The Black Cat* *The Masque of the Red Death* and *The Murders in the Rue Morgue* show that his attraction to the liberation of queerness is accompanied by demonstrations of extreme anxiety about the potentially terrifying consequences of non normative choices While Poe never resolved the conflicts in his thinking this book argues that this compelling imaginative tension between queerness and temporal normativity is crucial to understanding his canon

The Difficulties of Modernism Leonard Diepeveen, 2013-10-18 In *The Difficulties of Modernism* Leonard Diepeveen examines how difficulty became central to our encounters with modern literature and culture Literary modernism's first readers often complained that difficulty was running rampant in literature that art had become a plague of unintelligibility Diepeveen argues that the simultaneous appearance of modernism and discussion about difficulty was not coincidental difficulty allowed modernism to rise to the status of high art and it was fundamental to how modernism shaped the canon not only of twentieth century literature but of the literature that preceded it He argues that modernism can be best understood as the moment when knowing how to maneuver through difficult art became the central sign of one's ability to participate in high culture

Walt Whitman, Where the Future Becomes Present David Haven Blake, Michael Robertson, 2008-04 *Walt Whitman Where the Future Becomes Present* invigorates Whitman studies by garnering insights from a diverse group of writers and intellectuals Writing from the perspectives of art history political theory creative writing and literary criticism the contributors place Whitman in the center of both world literature and American public life The volume is especially notable for being the best example yet published of what the editors call the New Textuality in Whitman studies an emergent mode of criticism that focuses on the different editions of Whitman's poems as independent works of art
