Teaching Public Budgeting and Finance Bruce D. McDonald III, Meagan M. Jordan, 2021-12-24 Many universities offer the Master of Public Administration MPA or other public affairs degree which includes at least one course

in public budgeting or public financial management The faculty who teach these courses can however sometimes struggle to cover the breadth of material required and to fully engage students in what can be a technical subject Teaching Public Budgeting and Finance A Practical Guide addresses this challenge by sharing hands on classroom expertise from leading scholars and creative instructors in the field Drawing on their extensive experiences with teaching researching and engaging in service each contributor reflects on how their area of expertise can be taught most effectively providing a discussion of student learning outcomes pedagogical approaches relevant resources and appropriate course assignments While no one book can provide a final say on classroom instruction this first of its kind primer on teaching public budgeting and financial management courses is a detailed indispensable guide for all faculty looking to improve the learning experience of students in the classroom Teaching Public Budgeting and Finance A Practical Guide is required reading for early career faculty as they prepare to teach the course for what may be the first time as well as for more senior faculty looking to update their course complement their own teaching strengths or teaching the course for the first time in several years Budgeting and Financial Management in the Federal Government Jerry L. McCaffery, Lawrence R. Jones, 2002-02-01 Mission Statement The mission of the book series is to be consistent with the mission statement of the International Public Management Network IPMN that will sponsor the series The mission of IPMN and the book series is to provide a forum for sharing ideas concepts and results of research and practice in the field of public management and to stimulate critical thinking about alternative approaches to problem solving and decision making in the public sector The book series editors will seek to facilitate exchange and cooperative work among scholars interested in transformational change in the public sector in individual nations and around the world Our intent will be to create and sustain a dialogue on emerging management concepts methods and technology so that readers can learn about innovation and change in public sector organizations throughout the world IPMN presently includes members representing 70 different countries approximately 600 representatives from these nations As such we have a solid base of subscription support for the book series within IPMN For more information on IPMN see the website at <http://www.willamette.org/ipmn/about.html> In addition we want the series to appeal to members of the Public Sector section of the Academy of Management and to the members of the Association for Public Policy Analysis and Management Both editors belong to and participate actively in AOM and APPAM **Government Budgeting and Financial Management in Practice** Gerald J. Miller, 2017-09-25 The right turn in U S politics has increased conflict over both ends and means in government budgeting and financial management Overlapping and competing views of the way the world works drive finance officials practice Taking a new look at public financial management that acknowledges the multiple competing realities Government Budgeting and Financial Management in Practice Logics to Make Sense of Ambiguity examines transaction cost economics and other small government managed by the market techniques as the latest reincarnation of public budgeting and financial management orthodoxy Gerald J Miller reviews new research on the

continuing validity of the political dimension of government finance decisions and the multiple intensely argued constructions of reality the finance official must make sense of Miller discusses major advances in interpretive approaches to budgeting and finance and how they dominate writing in the broader field of public administration He also examines the effects of the explosion of information systems new budget techniques nonconventional ways of spending and new technologies The book uses a question as the motivating force to understand some facets of today s government budgeting finance and financial management where do the critical assumptions come from to drive financial management Miller takes the history of reform developments in the field and the logics finance officials say they use as sources for these assumptions and examines what they reveal about constructions of the government finance world Exploring new avenues of financial management thinking the book discusses ambiguity and interpretations that move the unclear preferences ends and goals toward consensus The author identifies an alternative approach to research that explains important facets of financial management This approach is drawn directly from practice events and problems in public organizations and from the creedal bent of many political actors in competition The Federal Fiscal Year as it Relates to the Congressional Budget Process United States.
