Legal Theory and the Media of Law Thomas Vesting, 2018-02-23 As many disciplines in the humanities have experienced a focus on culture's impact in recent decades questions surrounding the significance of media such as writing print and computer networks have become increasingly relevant This book seeks to demonstrate that a media and cultural theory perspective can also be highly productive for legal theory

Kierkegaard and Political Theory Armen Avanessian, Sophie Wenerscheid, 2014-11-21 Søren Kierkegaard's radical protestant philosophy of the individual in which a person's leap of faith is favored over general ethics has become a model for many contemporary political theorists Thinkers such as Slavoj Žižek and Alain Badiou have drawn on its revolutionary spirit to position truth above the constraints of political systems In Kierkegaard and Political Theory contributors from a wide range of disciplines including theology sociology philosophy and aesthetics examine just how crucial Kierkegaard's anti institutional thinking has been to such efforts and to modernity as a whole The contributors convincingly position Kierkegaard's radical philosophy as the starting point for contemporary political theory They show how he pioneered a modernity defined as an argument an experience of the impossibility of rationally comprehending a system of thinking They show how religious and aesthetic experiences function as a response to this impossibility how their coherence in politics must always be questioned especially in history's extreme

example totalitarianism Engaging this and many other subjects they provide a compelling new line in Kierkegaard studies that illuminates new contours of our political thought Armen Avanessian is founder of the research platform Speculative Poetics at the Free University Berlin Sophie Wenerscheid is professor of Scandinavian Studies at the University of Ghent

Constructing the Self Valérie Nicolet-Anderson, 2012 Using some of the works of Michel Foucault 1926 1984 as a conversation partner Valerie Nicolet Anderson focuses on the manner in which Paul constructs the identity of his audience in his letter to the Romans In particular she analyzes how the notions of autonomy and self agency function for both authors In this dialogue Valerie Nicolet Anderson examines whether Paul can still play a relevant part in contemporary discussions around the notion of identity The approach to Paul presents a narrative reading of Romans and displays an interdisciplinary hermeneutics which brings together New Testament exegesis and post modern philosophy The author constructs a dynamic picture of Paul as engaged in the shaping of the ethos of his communities through various strategies She highlights Paul s actuality reflecting the current use of Paul by continental philosophers and invites more interdisciplinary reflection between exegesis and philosophy

The Messianic Now Arthur Bradley, Paul Fletcher, 2013-10-18 This collection explores the phenomenon of the messianic in contemporary philosophy religion and culture From the later Derrida s work on Marx and Benjamin to Agamben and Badiou s recent texts on St Paul it is becoming possible to detect a marked messianic turn in contemporary continental thought However despite the plethora of work in the field there has not been any sustained attempt to think through the larger philosophical theological and cultural implications of this phenomenon What then characterises our contemporary messianic moment Where does it come from And why speak of the messianic now In *The Messianic Now* Philosophy Religion Culture a group of internationally known figures and rising stars within the fields of continental philosophy religious studies and cultural studies come together to consider what the messianic might mean at the beginning of the 21st century This book was published as a special issue of the Journal of Cultural Research
