Svendsen, 2012-08-30 An insightful exploration of intelligence cooperation officially known as liaison including its international dimensions This book offers a distinct understanding of this process valuable to those involved in critical information flows such as intelligence risk crisis and emergency managers **Timing the Future Metropolis** Peter Ekman, 2024-11-15 Timing the Future Metropolis an intellectual history of planning urbanism design and social science explores the network of postwar institutions formed amid specters of urban crisis and renewal that set out to envision the future of the American city Peter Ekman focuses on one decisive node in the network the Joint Center for Urban Studies founded in 1959 by scholars at Harvard and MIT Through its sprawling programs of organized research its manifold connections to universities foundations publishers and policymakers and its years of consultation on the planning of a new city in Venezuela Ciudad Guayana the Joint Center became preoccupied with the question of how to conceptualize the urban future as an object of knowledge Timing the Future Metropolis ultimately compels a broader reflection on temporality in urban planning rethinking how we might imagine cities yet to come and the consequences of deciding not to **Conjuring Culture** Theophus H. Smith, 1995-11-09 This book provides a sophisticated new interdisciplinary interpretation of the formulation and evolution of African American religion and culture Theophus Smith argues for the central importance of conjure a magical means of transforming reality in black spirituality and culture Smith shows that the Bible the sacred text of Western civilization has in fact functioned as a magical formulary for African Americans Going back to slave religion and continuing in black folk practice and literature to the present day the Bible has provided African Americans with ritual

prescriptions for prophetically re envisioning and thereby transforming their history and culture In effect the Bible is a conjure book for prescribing cures and curses and for invoking extraordinary and Divine powers to effect changes in the conditions of human existence and to bring about justice and freedom Biblical themes symbols and figures like Moses the Exodus the Promised Land and the Suffering Servant as deployed by African Americans have crucially formed and reformed not only black culture but American society as a whole Smith examines not only the religious and political uses of conjure but its influence on black aesthetics in music drama folklore and literature The concept of conjure he shows is at the heart of an indigenous and still vital spirituality with exciting implications for reformulating the next generation of black studies and black theology Even more broadly Smith proposes conjuring culture can function as a new paradigm for understanding Western religious and cultural phenomena generally

A Landscape of Architecture, History and Fiction Jonathan Hill, 2015-12-22 Architecture can be analogous to a history a fiction and a landscape We expect a history or a novel to be written in words but they can also be cast in concrete or seeded in soil The catalyst to this tradition was the simultaneous and interdependent emergence in the eighteenth century of new art forms the picturesque landscape the analytical history and the English novel Each of them instigated a creative and questioning response to empiricism s detailed investigation of subjective experience and the natural world and together they stimulated a design practice and lyrical environmentalism that profoundly influenced subsequent centuries Associating the changing natural world with journeys in self understanding and the design process with a visual and spatial autobiography this book describes journeys between London and the North Sea in successive centuries analysing an enduring and evolving tradition from the picturesque and romanticism to modernism Creative architects have often looked to the past to understand the present and imagine the future Twenty first century architects need to appreciate the shock of the old as well as the shock of the new

[The Song-Yuan-Ming Transition in Chinese History](#) Paul Jakov Smith, Richard von Glahn, 2020-03-23 This volume seeks to study the connections between two well studied epochs in Chinese history the mid imperial era of the Tang and Song ca 800 1270 and the late imperial era of the late Ming and Qing 1550 1900 Both eras are seen as periods of explosive change particularly in economic activity characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty 1271 1368 This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs This book aims to restore continuity to that historical narrative by filling the gap between mid imperial and late imperial China The contributors argue that the Song Yuan Ming transition early twelfth through the late fifteenth century constitutes a distinct historical period of transition and not one of interruption and devolution They trace this transition by investigating such subjects as contemporary impressions of the period the role of the Mongols in intellectual life the economy of Jiangnan urban growth neo Confucianism and local society commercial publishing
