Social Multimedia Signals Suman Deb Roy, Wenjun Zeng, 2014-08-11. This book provides a comprehensive coverage of the state of the art in understanding media popularity and trends in online social networks through social multimedia signals. With insights from the study of popularity and sharing patterns of online media, trend spread in social media, social network analysis for multimedia and visualizing diffusion of media in online social networks. In particular, the book will address the following important issues: Understanding social network phenomena from a signal processing point of view; The existence and popularity of multimedia as shared and social media; how content or origin of sharing activity can affect its spread and popularity; The network signal duality principle, i.e., how the signal tells us key properties of information diffusion in networks; The social signal penetration hypothesis, i.e., how the popularity of media in one domain can affect the popularity of media in another. The book will help researchers, developers and business advertising/marketing individuals to comprehend the potential in exploring social multimedia signals collected from social network data quantitatively from a signal processing perspective.

Research Outlook, Innovations & Research Trends in Science & Technology Prof. S. S. Rajput, Prof. Dr. Zeliha Selamoglu, Dr. Prashant P. Chaudhari, Mrs. Priyanka Gupta, 2020-10-25. This book is focused predominantly on academicians, research scholars, scientists, engineers, managers, technicians and other professionals in the field of qualitative research. This book is comprehended from different sources of research in Science and Technology. On the first occasion, the task of providing researchers with a broad view of the relationship between science and technology. The second reason for writing the book was the need to fill a gap in academics and research. While many excellent books, documents and

article exist for innovative practices we have not found a work in which we can properly understand the content that the researcher needs to understand So after much deliberation we decided to collect all quality efforts in one string At the most basic level this book is trying to show research scholars what science technology and innovations are all about It cannot study or gain knowledge of that part and is at a level that most researchers should find clear and understandable Our goal was to develop content that will help researchers who are beginning to use innovative practices We hope to meet the needs of academicians research scholars who are being encouraged to incorporate more reading and writing in the field of science and technology In summary this book is targeted to the needs of individuals engaged in quality research activities in science and technology Our goal is to present the topics of creativity and innovation to this audience in a way that enables them to incorporate new skills into their daily work We would like to thank all the contributors who have made the production of this book so fascinating and enjoyable Their scholarship and dedicated commitment and motivation to getting it right are the keys to the book s quality and we greatly appreciate their good nature over many months in the face of our editorial demands and time limits We are also grateful for using their texts ideas and critical remarks We would also like to thank Prof Dr Nilam N Ghuge Prof Dr D Ayub Khan Dawood Prof Dr Vilas A Pharande all reviewers and all authors for their help in consolidating the interdisciplinary of the book We are grateful to all the 18 institutions for their support It will not be possible to bring out this edition
