State Documents On Federal Relations State Documents On Federal Relations:

State Documents on Federal Relations Herman Vandenburg Ames, 2006 Covers the period 1789-1861 Managing State-Federal Relations: Growing Pressure on Malaysia's Madani Administration Tricia Yeoh, 2024-11-22 Since the Sheraton Move in 2020 which led to the fall of the Malaysian government many state governments in the federation have held their elections separately from the central government. This has resulted in a dynamic political situation in which coalitions have been formed in different ways at different times in different states. At present there are seven states ruled by the Pakatan Harapan Barisan Nasional PHBN grand coalition while four states are under the Perikatan Nasional PN coalition. States have increasingly demanded greater political and policy autonomy over the last few years, particularly in the area of fiscal revenue sharing between the federal and state governments. Progress has been most forthcoming for issues related to the East Malaysian states of Sabah and Sarawak and the federal government's newly set up Malaysia Agreement 1963 Implementation Action Council has been meeting regularly. Contentious state-federal issues remain for states apart from Sabah and Sarawak to which the federal government has not seriously responded. Limited space exists for formal state-federal negotiations that can result in firm decisions. Sabah will be holding its state election in 2025 followed by Sarawak and Malacca in 2026. Pressure will continue to build up as these timelines draw near and the federal government will need to identify better federal-state negotiation platforms than are currently available.

State Documents on Federal Relations Herman Vandenburg Ames, 1902 **Federalism, Secession, and the American State** Lawrence M. Anderson, 2013-05-20 One important tradition in political science conceives of the Civil War in the United States serving as the functional equivalent of the English and French Revolutions, bringing with it the victory of liberal democratic industrialism over aristocratic agriculturalism. From this perspective the Civil War is notable for its impact on the American state. Surprisingly, however, little attention has been paid to the distinguishing features of this historic rupture in American politics. Through primary source research and the re-analysis of the rich historical literature about the antebellum era and the causes of the Civil War, Lawrence A. Anderson explores the relationship between federalism and the movement for secession in the United States during the pre-civil war era. Focusing primarily on South Carolina, Anderson carefully revisits theory on institutional analysis of political development to expose what caused secession in the United States.
