Children's Picture Books and Contemporary Egyptian Society Yasmine Motawy, 2025-02-25 A social and political history of two decades of Egyptian neoliberalism through children s picture books published in Egypt in the post 2000 era Children s picture books are some of the most transparently ideological materials available to parents and educators and as cultural objects they are an expression of the zeitgeist of a particular era They reveal much about the hopes values and aspirations of the society that produces them as well as that society s vision of its place in the wider world at large Children s Picture Books and Contemporary Egyptian Society examines a new wave of Egyptian picture books that was published in the current century to see how these books responded to larger societal trends and transformations in Egypt as well as to explore the ideologies that lie behind them Yasmine Motawy argues that a host of factors including the growth of gated communities and international schooling the proliferation of lucrative literary awards returning Gulf migrants television dramas and nationwide reading advocacy initiatives helped give rise to a new kind of children s picture book in Egypt Motawy focuses on three clusters of selected picture books to investigate the extent to which these books reproduce hegemonic discourses or alternatively open up new horizons of childhood agency and societal transformation The first cluster includes books that directly socialize the child by showing them how things are done in both the domestic sphere and the increasing globalized spaces that children frequent with their families The second cluster aims at reframing cultural notions around femininity through the retelling of folk and fairy tales while the third cluster addresses

extend children's books toward deep thinking and understanding. The book includes sample lessons that use cutting edge research based pedagogies and tools such as visible thinking routines and other approaches. Those lessons also help readers identify the Habits of Mind (HOM) children can develop by listening to and discussing stories. The HOM are attributes of good problem finders and problem solvers needed when confronting complex issues. The book provides resources and sample lessons that implement different thinking strategies to engage children in questioning and analyzing what they read, making them more critical. This is how children deeply understand the world and their role in creating positive change. The book aims to cultivate change makers and global citizens through stories. It offers innovative approaches including online learning options in accessible and engaging ways to help children think globally and act locally. Through the power of children's literature, this book serves a larger agenda: To build a more thoughtful world for future generations. By caring for and learning from one another through suggested activities in this book, they will share the riches and resources from across the world. As children learn about the promise of actions toward the UN Sustainable Goals, they can imagine living in an interdependent learning community where all people continually searching for ways to trust each other, learn together, and grow toward greater intelligence.
