State Theory Putting The Capitalist State In Its Place:

State Theory Bob Jessop, 1990 This volume develops a novel approach to state theory It offers a comprehensive review of the existing literature on the state and sets a new agenda for state research Four central themes define the scope of the book an account of the bases of the operational autonomy of the state the need to develop state theory as part of a more general social theory the possibilities of explaining capitalist societalization without assuming that the economy is the ultimate determinate of societal dynamics and a defense of the method of articulation in theory construction In developing these issues Bob Jessop both builds on and goes well beyond the view presented in his earlier books *The Capitalist State* 1982 and Nicos Poulantzas 1985 The result is a highly original statement that should stimulate much debate The volume confirms the author's standing as one of the most important postwar Marxist state theorists State Theory Bob

Jessop, 1996 *An Anthology of Migration and Social Transformation* Anna Amelina, Kenneth Horvath, Bruno Meeus, 2015-12-01 The contributions of this book examine contemporary dynamics of migration and mobility in the context of the general societal transformations that have taken place in Europe over the past few decades The book will help readers to better understand the manifold ways in which migration trends in the region are linked to changing political economic constellations orders of power and inequality and political discourses It begins with an introduction to a number of theoretical approaches that address the nexus between migration and general societal shifts including processes of supranationalisation EU enlargement postsocialist transformations and rescaling It then provides a comprehensive overview of the political regulation of migration through border control and immigration policies The contributions that follow detail the dynamic changes of individual migration patterns and their implications for the agency of mobile individuals The final part challenges the reader to consider how policies and practices of migration are linked to symbolic struggles over belonging and rights describing a wide range of expressions of such conflicts from cosmopolitanism to racism and xenophobia This book is aimed at researchers in various fields of the social sciences and can be used as course reading for undergraduate graduate and postgraduate courses in the areas of international migration transnational and European studies It will be a beneficial resource for scholars looking for material on the most current conceptual tools for analysis of the nexus of migration and societal transformation in Europe *Handbook of Politics* Kevin T. Leicht, J. Craig

Jenkins, 2009-11-28 Political sociology is the interdisciplinary study of power and the intersection of personality society and politics The field also examines how the political process is affected by major social trends as well as exploring how social policies are altered by various social forces Political sociologists increasingly use a wide variety of relatively new quantitative and qualitative methodologies and incorporate theories and research from other social science cognate disciplines The contributors focus on the current controversies and disagreements surrounding the use of different methodologies for the study of politics and society and discussions of specific applications found in the widely scattered literature where

substantive research in the field is published This approach will solidly place the handbook in a market niche that is not occupied by the current volumes while also covering many of the same theoretical and historical developments that the other volumes cover The purpose of this handbook is to summarize state of the art theory research and methods used in the study of politics and society This area of research encompasses a wide variety of perspectives and methods that span social science disciplines The handbook is designed to reflect that diversity in content method and focus In addition it will cover developments in the developed and underdeveloped worlds

Social Innovation and Territorial Development Diana MacCallum, Serena Vicari Haddock, 2016-04-01 The concept of social innovation offers an alternative perspective on development and territorial transformation one which foregrounds innovation in social relations This volume presents a broad ranging and insightful exploration of social innovation and how it can affect life society and economy especially within local communities It addresses key questions about the nature of social innovation as a process and a strategy and explores what opportunities may exist or may be generated for social innovation to nourish human development It puts forward alternative development options which variously highlight solidarity co operation cultural artistic endeavour and diversity In doing so this book offers a provocative response to the predominant neoliberal economic vision of spatial economic and social change

The Financialization of the Swedish Growth Model Viktor Skyrman, 2024-03-01 Financialization the increasing influence of financial markets actors practices and measurements in political economic and social life continues to draw attention from scholars from diverse academic fields Contributing to the literatures on household financialization financial market institutionalization and the financialization of nature this dissertation explores the underlying factors that enabled and facilitated the financialization of Sweden s growth model Drawing from the Regulation Approach and heterodox economics it analyzes how covered bonds an overlooked topic in financialization studies have contributed to de risking European financial markets decelerated the spread of securitization and enabled an increase in mortgage lending house price inflation and household indebtedness especially in Sweden Zooming in on the Nordic forest industry the dissertation furthermore elaborates on the differential impact of financialization on non financial firms Amid the entrance of shareholder value ideology it shows how innovation was undermined through R D downsizing while dividends have been increased to shareholders at labor s expense Meanwhile profitability has been supported by appreciating forest assets that are increasingly treated as a new financial asset class by the financial sector In addition providing data on welfare retrenchment financialization indicators and corporate governance while applying a Gramscian Regulation Approach the dissertation analyzes the structural pressures and the formation of a particular neoliberal hegemony that have shaped the financialization of Sweden s previously universal welfare sector Whereas financial markets have been seen as crucial for growth and employment the dissertation furthermore documents how financial deepening has mainly resulted in increased mortgage lending while public sector debt has increasingly been perceived as economically detrimental by policymakers The

dissertation finalizes with some stylized facts of financialization in small Western economies and how they relate to Sweden

Struggles for Hegemony in Italy's Crisis Management Daniela Caterina, 2018-09-25 This book investigates the struggles for hegemony and a possible crisis of crisis management at the core of Italy's political economy. With a specific focus on the conflict over the 2012 labour market reform, the book also explores the country's trajectory in the area of economic and social reproduction. It presents a framework for critical policy analysis that draws on cultural political economy and explores its potential synergies with complementary approaches such as historical materialist policy analysis and critical discourse analysis. Readers will gain an understanding of crisis dynamics in the aftermath of 2008 and insights into related political reactions. The book will also help them develop the analytical tools needed to make sense of these puzzling phenomena.

The Rise of International Capital Faris Al-Fadhat, 2019-01-09 This book analyzes the social forces and political coalitions driving regional integration projects in Asia with a focus on ASEAN and Indonesian conglomerates. It asks which social forces within the domestic political economy of Asian states are driving governments to seek regional arrangements for economic governance. In particular, the book asks how the emergence, reorganization and expansion of capitalist class have conditioned political support for regional economic integration. By addressing these issues, the book emphasizes that the wellspring of regional economic institution projects stem from the process of capitalist development and the social forces it has unleashed. The book's aim is to place the social and class relations that underpin regional projects rather than the institutions which result from them at the centre of the analysis of regional integration. The research for this account draws primarily on primary documents from archival and field research conducted by the author, including company documents and in-depth interviews, government reports and policies, and trade publications and data sources, which is supplemented with secondary sources where relevant.

Handbook of Business and Public Policy Kellow, Aynsley, Porter, Tony, Ronit, Karsten, 2021-08-27 This comprehensive Handbook provides an analysis of the key issues, accomplishments and challenges of research and practices related to the interactions between business and public policy.

Education and the Knowledge-Based Economy in Europe, 2008-01-01 This book addresses the recent impact of the knowledge-based economy as an economic imaginary and as a set of real economic developments on education and especially higher education in Europe, including educational strategies and policies such as those of the Bologna process on a European scale. The contributors come from various disciplinary backgrounds: education, history, linguistics, sociology, but share a commitment to transdisciplinary research and a view that changes in educational policy and practice can productively be researched with a focus on discourse. The papers in this collection apply a range of approaches to discourse analysis as well as narrative policy analysis, and several contributors use a cultural political economy perspective which incorporates a version of critical discourse analysis. The book will be of interest to researchers, postgraduate students and advanced undergraduate students in several subject areas, including education, discourse studies and political economy.
