Statistics Of Random Processes Statistics Of Random Processes:

Statistics of Random Processes I R.S. Liptser, A.N. Shiryaev, 2013-11-11 A considerable number of problems in the statistics of random processes are formulated within the following scheme On a certain probability space Q a partially observable random process X_t is given with only the second component Y_t observed At any time t it is required based on h_t to estimate the unobservable state X_t This problem of estimating in other words the filtering problem X_t from h_t will be discussed in this book It is well known that if M_t
