Mastering OSINT Cybellium,2023-09-05 In an age defined by information abundance the practice of Open Source Intelligence OSINT has emerged as a potent tool for uncovering insights hidden in plain sight Mastering OSINT is an illuminating guide that equips readers with the skills and strategies needed to navigate the vast realm of open source information enabling them to become adept OSINT practitioners capable of extracting valuable knowledge from the digital landscape About the Book Authored by leading experts in the field of OSINT Mastering OSINT offers an in depth exploration of the techniques tools and methodologies used to harness open source information effectively Through a combination of real world examples case studies and practical exercises this book provides readers with the knowledge required to excel in the dynamic field of OSINT Key Features OSINT Fundamentals The book begins by unraveling the foundational concepts of OSINT guiding readers through the principles and ethics that underpin this powerful practice Search Techniques Readers will delve into advanced search techniques and strategies that optimize the collection of open source information from a variety of online sources Social Media Analysis With social media becoming a treasure trove of insights the book explores methods for extracting actionable intelligence from platforms like Twitter Facebook LinkedIn and more Web Scraping and Automation The book covers the art of web scraping and automation empowering readers to gather process and analyze data at scale to uncover valuable insights Digital Footprint Analysis Through digital footprint analysis readers will learn to piece together fragments of online presence to construct a comprehensive profile of individuals and organizations Dark Web Exploration In a world where hidden corners of the internet exist the book sheds light on navigating the dark web to gather intelligence while maintaining security and anonymity Investigative Techniques From geolocation analysis to image forensics the book equips readers with a toolkit of investigative techniques that enhance the quality and accuracy of OSINT findings Case Studies and Practical Scenarios Featuring real world case studies and practical scenarios readers gain firsthand insights into how OSINT techniques are applied to solve complex problems and uncover critical information Who Should Read This Book Mastering OSINT is a must read for intelligence analysts cybersecurity professionals law enforcement personnel journalists researchers and anyone seeking to harness the power of open source intelligence to gain a competitive edge or enhance security Whether you re a novice curious about OSINT or a seasoned professional looking to refine your skills this book serves as an essential guide to mastering the art of extracting insights from open sources About the Authors The authors of Mastering OSINT are esteemed practitioners and researchers in the field of open source intelligence With a deep understanding of the nuances and challenges of OSINT they share their wealth of knowledge experience and insights to empower readers to excel in the realm of open source intelligence

The Dark Social Toija Cinque,Alexia Maddox,Robert W. Gehl,2023-11-07 This book explores how people interact online through anonymous communication in encrypted hidden or otherwise obscured online spaces Beyond the Dark Web itself this book examines how the concept of dark social broadens

the possibilities for examining notions of darkness and sociality in the age of digitality and datafied life The authors take into account technical moral ethical and pragmatic responses to ourselves and communities seeking to belong in of the dark Scholarship on the Darknet and Dark Social Spaces tends to focus on the uses of encryption and other privacy enhancing technologies to engender resistance acts Such understandings of the dark social are naturally in tension with social and political theories which argue that for politics and acts to matter they must appear in the public light They are also in tension with popular narratives of the dark recesses of the web which are disparaged by structural powers who seek to keep their subjects knowable and locatable on the clear web The binary of dark versus light is challenged in this book The authors provocation is that practices of dark resistance motility and power are enacted by emerging data cultures This book draws together scholarship activism and creativity to push past conceptual binary positions and create new approaches to darknet and dark social studies The Dark Social Online Practices of Resistance Motility and Power will be a key resource for academics researchers and advanced students of media studies cultural studies communication studies research methods and sociology This book was originally published as a special issue of Continuum Journal of Media Cultural Studies

Exploring Malicious Hacker Communities Ericsson Marin, Mohammed Almukaynizi, Soumajyoti Sarkar, Eric Nunes, Jana Shakarian, Paulo Shakarian, Edward G. Amoroso, 2021-04-29 Cutting edge models for proactive cybersecurity applying AI learning and network analysis to information mined from hacker communities *Critical Perspectives on Social Control and Social Regulation in Canada* Mitch Daschuk, 2020-08-25T00:00:00Z How does social regulation shape who is deviant and who is normal Critical Perspectives on Social Control and Social Regulation in Canada is an introduction to the sociology of what has traditionally been called deviance and conformity This book shifts the focus from individuals labelled deviant to the political and economic processes that shape marginalization power and exclusion Class gender race and sexuality are the bases for understanding deviance and it is within these relations of power that the labels deviant and normal are socially developed and the behaviours of those less powerful become regulated This textbook introduces readers to theories and critiques of traditional approaches to deviance and conformity Using vivid and timely examples of contemporary social regulation and control this textbook brings to life how forces of social control and marginalization interact with social media sex work immigration anti colonialism digital surveillance and social movements and much more Theories and critiques are clarified with summaries definitions rich illustrative examples discussion questions recommended resources and test banks for instructors **Jazz: A Beginner's Odyssey** Freddie Caldwell, Embark on an enriching journey through the vibrant world of jazz with Jazz A Beginner s Odyssey This comprehensive guide offers a captivating exploration of jazz s origins evolution and cultural significance Delve into the essential elements of jazz from rhythm and harmony to improvisation and composition as you uncover the secrets of this captivating genre Meet jazz legends past and present learn performance techniques and discover the diverse styles and subgenres that have shaped jazz into what it is today Whether

The Hivemind Swarmed David Wolinsky, 2024-08-13 An incisive oral history that brings together the voices of major figures in gaming tech media and politics to reflect on the long shadow of Gamergate With The Hivemind Swarmed oral historian and documentary researcher David Wolinsky invites readers to sit in on a series of urgent intimate conversations between some of the most distinguished voices across entertainment and media as they reflect on the longstanding impact of Gamergate What went wrong and what can we learn from Gamergate to help us build a more equitable online world The backstory 10 years ago a disgruntled software developer named Eron Gjoni posted online to

accuse his ex girlfriend game developer Zo Quinn of sleeping with game critics in exchange for positive reviews He offered no evidence to back up his claims However his posts were picked up by extremists in the gaming community who built a vicious online movement targeting women minorities and progressive voices Rallying under the hashtag gamergate they sent their victims round the clock death and rape threats Game companies for the most part declined to take action as their female employees were harassed out of their jobs The FBI launched an investigation but found no true threat Gamergate holds the grim distinction of being the first modern online harassment campaign It arguably served as a model for the alt right movement that would help propel Donald Trump to the White House And it highlighted a toxic media culture not just in gaming but in film TV journalism and more in which leaders through their passivity took the side of the oppressor Now ten years later in the wake of MeToo Charlottesville the Trump years and the January 6 insurrection the questions discussed here are more important than ever

Gaming Democracy Adrienne L. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms From Gamergate to the ongoing Big Lie the far right has gone mainstream In Gaming Democracy Adrienne Massanari tracks the flames of toxicity found in the far right and alt right movements as they increasingly take up oxygen in American and global society In this pathbreaking contribution to the fields of internet studies game studies and gender studies Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to game the ecology of platforms algorithms and attention economies While populist movements are not new phenomena such as QAnon parental rights activism and COVID denialism are uniquely of the internet with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions Using the lens of play and game studies as well as the concept of metagaming Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism
