

# How do the perspectives of UK university students, as expressed on Reddit, evolve over time?

Examining key themes and sentiment trends from r/UKUni posts (2014-2023) to understand the changing perspectives and emotional dynamics of UK university students.

| BACKGROUND | TOPIC ANALYSIS | SENTIMENT ANALYSIS | TOPIC DATA | INTERPRETATION |
|------------|----------------|--------------------|------------|----------------|
|------------|----------------|--------------------|------------|----------------|

## Interpretation, Limitations and Future Direction

The topic frequency graph provides an overview of the most prevalent themes discussed by UK university students on Reddit over time. Notably, while the chart shows an increasing trend for all topics as the subreddit grows, it particularly highlights Topic 1 (Mental Health), becoming the most prominent. To further explore the relative prevalence of each topic over time, we created a series of stacked area charts (e.g., Accommodation, University Applications, Social Aspects (e.g., Making Friends, Interactions), and Personal Well-being (e.g., Mental Health, Burnout)). First, the prominence of topics such as jobs, university choice and applications, accommodation and finance highlights the practical challenges that students face in their university journey. Subsequently, students use such social media platforms as an avenue of seeking help and advice from other UK university students who have experienced similar concerns. These discussions not only provide valuable peer-to-peer support but also offer insights into the common struggles and decision-making processes of students.

Secondly, the increasing prevalence of mental health and wellbeing topics (e.g., Anxiety, Depression, Stress, Burnout, Self-Harm, Suicide, Grief, Loss, Loneliness, Isolation, Social Media, Relationships, Family, Friends, Love, Sex, Drugs, Alcohol, Smoking, Gambling, Gaming, Music, Art, Sports, Hobbies, Pets, Travel, Food, Fashion, Technology, Science, Nature, Environment, Climate Change, Politics, Religion, Spirituality, Philosophy, Literature, Film, TV, Music, Games, Apps, Websites, Social Media, etc.) suggests a growing awareness and concern for mental health issues among students. This growing focus on mental health is likely a reflection of the increasing prevalence of mental health issues in the general population, as well as the growing awareness of the importance of mental health in overall well-being.
