Sleep Romance Human Embodiment Vitality:

Sleep, Romance and Human Embodiment Garrett A. Sullivan, Jr, 2012-08-09 Garrett Sullivan explores the changing impact of Aristotelian conceptions of vitality and humanness on sixteenth and seventeenth century literature before and after the rise of Descartes Aristotle's tripartite soul is usually considered in relation to concepts of psychology and physiology However Sullivan argues that its significance is much greater constituting a theory of vitality that simultaneously distinguishes man from and connects him to other forms of life He contends that in works such as Sidney's *Old Arcadia* Shakespeare's *Henry IV* and *Henry V* Spenser's *Faerie Queene* Milton's *Paradise Lost* and Dryden's *All for Love* the genres of epic and romance whose operations are informed by Aristotle's theory provide the raw materials for exploring different models of humanness and that sleep is the vehicle for such exploration as it blurs distinctions among man plant and animal

Sleep, Romance and Human Embodiment Garrett A. Sullivan, 2012 Garrett Sullivan explores the changing impact of Aristotelian conceptions of vitality and humanness on sixteenth and seventeenth century literature before and after the rise of Descartes In the Renaissance Aristotle's tripartite soul is usually considered in relation to concepts of psychology and physiology However Sullivan argues that its significance is much greater constituting a theory of vitality that simultaneously distinguishes man from and connects him to other forms of life He contends that in works such as Sidney's *Old Arcadia* Shakespeare's *Henry IV* and *Henry V* Spenser's *Faerie Queene* Milton's *Paradise Lost* and Dryden's *All for Love* the genres of epic and romance whose operations are informed by Aristotle's theory provide the raw materials for exploring different models of humanness and that sleep is the vehicle for such exploration as it blurs distinctions among man plant and animal

Sleep and the Novel Michael Greaney, 2018-04-04 *Sleep and the Novel* is a study of representations of the sleeping body in fiction from 1800 to the present day which traces the ways in which novelists have engaged with this universal indispensable but seemingly nondescript region of human experience Covering the narrativization of sleep in Austen the politicization of sleep in Dickens the queering of sleep in Goncharov the aestheticization of sleep in Proust and the medicalization of sleep in contemporary fiction it examines the ways in which novelists envision the figure of the sleeper the meanings they discover in human sleep and the values they attach to it It argues that literary fiction harbours on its margins a sleeping partner one that we can nickname the Schlafroman or sleep novel whose quiet absorption in the wordlessness and passivity of human slumber subtly complicates the imperatives of self awareness and purposive action that traditionally govern the novel

Shakespeare Studies, vol. 42 James R. Siemon, Diana E. Henderson, 2014-09-30 An annual volume containing essays and studies by critics and cultural historians from around the world Also includes two review articles and thirteen books reviews

Placing Elysium in Renaissance Britain Patrick Cheney, 2025-10-02 *Placing Elysium in Renaissance Britain* Poetry Politics Theology Eros is the first study of Elysium as a place in English Renaissance culture The absence of such a study in the fields of literature and geography is surprising from its captivating origin in the oceanic

margins of Homer's *Odyssey* to its presence in the Eden of Milton's *Paradise Lost* Elysium is a destination to be desired it is the land of the blessed As such Elysium becomes a geographical site for an author's most valued space In Britannia Camden provides leadership for this project by citing Plutarch as locating the blessed place in Britain Following Camden Spenser centralizes the idea of Britain as Elysium Subsequently English authors make the Elysian place the site of a liberating sublimity as the height of artistic renown This authorial template becomes the site for literary inflections in the realms of politics theology and eros However Kyd and Marlowe darken the Spenserian project recalling Virgil's geographical positioning of Elysium next to Hell In turn Drayton Chapman and Marston champion the Spenserian idea of Britain as Elysium As this conversation suggests English authors make Elysium the central place of the Renaissance period concept and they do so in the nation building genre of epic In *The Muses Elizium* Drayton crowns the Spenserian tradition by making the blessed place the monomyth of national poetry At the centre of the monomyth is the cherished ideal of Renaissance culture the Elysian capacity of the human to become divine

Lesser Living Creatures of the Renaissance Keith Botelho, Joseph Campana, 2023-01-06 *Lesser Living Creatures* examines literary and cultural texts from early modern England in order to understand how people in that era thought about and with insect and arachnid life The conversations in this two volume set address the collaborative multigenerational research that produced early modern natural history and provide new insights into the old question of what it means to be human in a world populated by beasts large and small Volume 2 *Concepts* explores ideas that cut across species insect and otherwise both building on and invigorating critical vocabularies developed over nearly two decades of early modern animal studies The contributors explore topics such as the medical and culinary consumption of insects extermination campaigns the auditory and emotive effects of a swarm insects and politics and notions of infestation stinging and creeping Throughout they illuminate how early modern science and literature worked as intersecting systems of knowledge production about the natural world and show definitively how insect life was and remains intimately entangled with human life In addition to the editors contributors to this volume include Lucinda Cole Frances E Dolan Lowell Duckert Andrew Fleck Rebecca Laroche Jennifer Munroe Amy L Tigner Jessica Lynn Wolfe Derek Woods and Julian Yates

The Other Exchange Denys Van Renen, 2017-03 Prompted by commercial and imperial expansion such as the creation of the Bank of England in 1694 and the publication and circulation of Ben Jonson's *The Staple of News* in 1626 rapidly changing cultural economic and political realities in early modern England generated a paradigmatic shift in class awareness Denys Van Renen's *The Other Exchange* demonstrates how middle class consciousness not only emerged in opposition to the lived and perceived abuses of the aristocratic elite but also was fostered by the economic and sociocultural influence of women and lower class urban communities Van Renen contends that fascinated by the intellectual and cultural vibrancy of the urban underclass many major authors and playwrights in the early modern era Ben Jonson Richard Brome Aphra Behn Joseph Addison Richard Steele Eliza Haywood and Daniel Defoe featured lower class men and women and other

marginalized groups in their work as a response to the shifting political and social terrain of the day Van Renen illuminates this fascination with marginalized groups as a key element in the development of a middle class mindset Embodied Cognition and Shakespeare's Theatre Laurie Johnson, John Sutton, Evelyn Tribble, 2014-03-26 This collection considers issues that have emerged in Early Modern Studies in the past fifteen years relating to understandings of mind and body in Shakespeare's world Informed by *The Body in Parts* the essays in this book respond also to the notion of an early modern body mind in which Shakespeare and his contemporaries are understood in terms of bodily parts and cognitive processes What might the impact of such understandings be on our picture of Shakespeare's theatre or on our histories of the early modern period broadly speaking This book provides a wide range of approaches to this challenge covering histories of cognition studies of early modern stage practices textual studies and historical phenomenology as well as new cultural histories by some of the key proponents of this approach at the present time Because of the breadth of material covered full weight is given to issues that are hotly debated at the present time within Shakespeare Studies presentist scholarship is presented alongside more historically focused studies for example and phenomenological studies of material culture are included along with close readings of texts What the contributors have in common is a refusal to read the work of Shakespeare and his contemporaries either psychologically or materially instead these essays address a willingness to study early modern phenomena like the Elizabethan stage as manifesting an early modern belief in the embodiment of cognition

Ascent Tzachi Zamir, 2018 At the base camp imagining First climb wisdom First crossroad knowledge Second climb meaningful action Second crossroad purchase Third climb meaningless action Third crossroad place Fourth climb receiving Fourth crossroad needs Fifth climb gratitude Fifth crossroad sin At the summit *The Oxford Handbook of Shakespeare and Embodiment* Valerie Traub, 2016 The Oxford Handbook of Shakespeare and Embodiment brings together 42 of the most important scholars writing on the subject today They explore representations of gender in the context of race ethnicity sexuality disability and religion and consider Shakespeare's life contemporary editing practices and the performance of his plays
