Slightly Out Of Focus Modern Library War:

D-Day Jonathan Mayo, 2014-05-27 Told in a purely chronological style this fascinating account vividly details the authentic stories of regular people caught up in the historical events of D Day June 6 1944 was a truly historic day but it was also a day where ordinary people found themselves in extraordinary situations Lieutenant Norman Poole jumped from a bomber surrounded by two hundred decoy dummy parachutists French baker Pierre Cardron led British paratroopers to his local church where he knew two German soldiers were hiding in the confessional Southampton telegram boy Tom Hiatt delivered his first death message by midday At the sound of Allied aircraft Werner Kortenhaus of the twenty first Panzer Division ran to collect his still damp washing from a French laundrywoman And injured soldiers wept in their beds in a New York hospital knowing that their buddies lay dying on the Normandy beaches Drawing on memoirs diaries letters and oral accounts D Day is a purely chronological narrative concerned less with the military strategies and more with what people were thinking and doing as D Day unfolded minute by minute Moving seamlessly from various perspectives and stories D Day sets the reader in the midst of it all compelling us to relive this momentous day in world history

The Cruel Radiance

Susie Linfield, 2011-05-27 In *The Cruel Radiance* Susie Linfield challenges the idea that photographs of political violence exploit their subjects and pander to the voyeuristic tendencies of their viewers Instead she argues passionately that looking at such images and learning to see the people in them is an ethically and politically necessary act that connects us to our modern history of violence and probes the human capacity for cruelty Grappling with critics from Walter Benjamin and Bertolt Brecht to Susan Sontag and the postmoderns and analyzing photographs from such events as the Holocaust China's Cultural Revolution and recent terrorist acts Linfield explores the complex connection between photojournalism and the rise of human rights ideals In the book's concluding section she examines the indispensable work of Robert Capa James Nachtwey and Gilles Peress and asks how photography should respond to the increasingly nihilistic trajectory of modern warfare A bracing and unsettling book *The Cruel Radiance* convincingly demonstrates that if we hope to alleviate political violence we must first truly understand it and to do that we must begin to look

The Media Offensive

Alexander G. Lovelace, 2022-05-25 World War II was a media war President Franklin D Roosevelt used the press to a great extent of course but as the war progressed the media also came to influence commanders decisions on the battlefield Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters Omar Bradley's concern over US public opinion convinced General Dwight D Eisenhower to include Americans in the final assault against Axis forces in Tunisia General George S Patton Jr raced across Sicily to gain media

attention and British respect General Mark Clark's hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction. Negative media pressure and the fear of V-1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944. British general Bernard Montgomery's remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies. Soon afterward Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion. By V-E Day even Eisenhower was attempting to get more publicity for American as opposed to Allied units. The Media Offensive offers a new way to understand military media relations during World War II. The press and public opinion shaped not only how the conflict was seen but also how it was fought. Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories. Truthful news reporting defined as news reporting that accurately depicts the events it describes could not be created by the military or even the media but could only emerge through a free press searching for it. Lovelace recasts World War II in a new and unique fashion by placing media and public opinion at the center of battlefield decision making. Unlike past scholarship on the media during World War II that focused on censorship propaganda or the adventure stories of war correspondents, The Media Offensive takes the historiography of war reporting in a new direction. In what could be called the new history of war reporting the focus is switched from how the military controlled reporters to how military decisions were shaped by the press.

The War Beat, Europe Steven Casey, 2017 A fast paced narrative of the hard driving American war correspondents who reported the war against Nazi Germany from the battlegrounds of North Africa Germany Italy and France and shaped the home front's perception of some of the most pivotal battles in American history

The Alienated War Veteran in Film and Literature Emmett Early, 2014-01-17 The veterans culture in postwar eras from World War I to the present is examined in this book with specific attention to the historic events of each era as they influence veterans and the literature and movies produced about veterans and by veterans. The intention is to highlight the reciprocal interactions among the influences of the war the veterans and the culture. The common alienation of the veterans of foreign wars is thoroughly explored. Films and literary works featuring war veterans of each era are examined in detail for their various views of alienation. Homer's Odyssey myths fairy tales modern novels memoirs and short stories are all discussed with an emphasis on detailing what is common and expected with returning veterans and what is unique for each postwar era.

Michael Curtiz *Back into Focus* Charles R. Herrick, 2024-12-05 This new account carefully details the events surrounding Robert Capa's D Day adventures using official SHAEF files and a variety of accounts of witnesses Although Capa's Falling Soldier image from the Spanish Civil War has been definitively proven to be a staged propaganda fake no one has applied a similarly critical eye to his later work This book is the first effort to establish the facts behind the fables surrounding his D Day adventures and the images he produced during that period This book examines the fictionalized account Robert Capa penned in his pseudo biography *Slightly Out of Focus* Written in the hopes of it becoming a movie Capa included many elements which were exaggerated or simply not true while omitting many relevant events As he himself said in the dust jacket for that book Writing the truth being obviously so difficult I have in the interests of it allowed myself to go sometimes slightly beyond and slightly this side of it All events and persons in the book are accidental and have something to do with the truth This new account carefully details the actual events surrounding Capa's D Day adventures using official SHAEF files still and motion picture images taken by other cameramen who were near or with Capa and a variety of accounts of witnesses It examines several aspects of Capa's narrative and reveals the truth behind the fiction he claimed that he landed in the First Wave with Company E in reality he landed almost two hours later in Wave 13 with the regimental commander Analysis reveals how many of his images were presented in a false context and as a result have been misinterpreted for decades Building on Allan Coleman and his team's proof that the bulk of Capa's D Day photos could not possibly have been ruined in a darkroom accident this gripping expose details the effects the FORTITUDE deception plans had on censorship and how the censorship system would have retained the images popularly thought to have been lost **Victory** Cian O'Driscoll, 2020 This book examines the way in which the concept of victory has been treated in just war thinking the predominant discourse in the western world for thinking about the rights and wrongs of war **Richard Tregaskis** Ray E. Boomhower, 2021-11-15 In the late summer of 1942 more than ten thousand members of the First Marine Division held a tenuous toehold on the Pacific island of Guadalcanal As American marines battled Japanese forces for control of the island they were joined by war correspondent Richard Tregaskis Tregaskis was one of only two civilian reporters to land and stay with the marines and in his notebook he captured the daily and nightly terrors faced by American forces in one of World War II's most legendary battles and it served as the premise for his bestselling book *Guadalcanal Diary* One of the most distinguished combat reporters to cover World War II Tregaskis later reported on Cold War conflicts in Korea and Vietnam In 1964 the Overseas Press Club recognized his first person reporting under hazardous circumstances by awarding him its George Polk Award for his book *Vietnam Diary* Boomhower's riveting book is the first to tell Tregaskis's gripping life story concentrating on his intrepid reporting experiences during World War II and his fascination with war and its effect on the men who fought it
