healthful and satisfying It has all the nutrients of regular milk and more in a form that may be digestible even for those who cannot otherwise tolerate dairy Most yogurt also contains live bacteria that can be beneficial to gut health Why make your own One reason might be saving money The cost of homemade yogurt could be as low as a quarter of the cost of store bought And it s never likely to rise above half even if you splurge on premium milk Another reason might be to avoid commonly added ingredients like thickeners and stabilizers You might also want a specialized yogurt that s hard or impossible to get commercially a yogurt with even richer taste or with lactose more heavily reduced or with greatly strengthened probiotics Why not make your own There are good reasons here too Most home recipes are exacting and time consuming And in the end you may wind up with a product you like less than commercial yogurt with little or no added health benefit I stopped making my own yogurt for years because it didn t seem worth the effort Eventually though my experiments convinced me otherwise and led me to write this book Here I hope to put to rest your reasons against and strengthen your reasons for while also exploring possibilities that might be entirely new to you *Smart Housekeeping Around the Year* Anne L.
