Twitter Trending S Collection:

Tweets and the Streets Paolo Gerbaudo, 2012-10-05 What should we make of the culture of the protest movements of the 21st century From the Arab Spring to the indignados protests in Spain and the Occupy movement Paolo Gerbaudo examines the relationship between the rise of social media and the emergence of new forms of protest Gerbaudo argues that activists use of Twitter and Facebook does not fit with the image of a cyberspace detached from physical reality Instead social media is used as part of a project of re appropriation of public space which involves the assembling of different groups around occupied places such as Cairo s Tahrir Square or New York s Zuccotti Park An exciting and invigorating journey through the new politics of dissent Tweets and the Streets points both to the creative possibilities and to the risks of political evanescence which new media brings to the contemporary protest experience *New Trends on System Science and Engineering* H. Fujita, S.-F. Su, 2015-06-23 System science and engineering is a field that covers a wide spectrum of modern technology A system can be seen as a collection of entities and their interrelationships which forms a whole greater than the sum of the entities and interacts with people organisations cultures and activities and the interrelationships among them Systems composed of autonomous subsystems are not new but the increased complexity of modern technology demands ever more reliable intelligent robust and adaptable systems to meet evolving needs This book presents papers delivered at the International Conference on System Science and Engineering ICSSE2015 held in Morioka Japan in July 2015 Some of the topics covered here include systems modeling tools and simulation cloud robotics and computing systems systems safety and security smart grid human systems and industrial organization and management and novel applications of systems engineering and systems architecture Capturing as it does the latest state of the art and challenges in system sciences and its supporting technology this book will be of interest to all those involved in developing and using system science methodology tools and techniques *The Routledge Companion to Alternative and Community Media* Chris Atton, 2015-05-15 The Routledge Companion to Alternative and Community Media provides an authoritative and comprehensive examination of the diverse forms practices and philosophies of alternative and community media across the world The volume offers a multiplicity of perspectives to examine the reasons why alternative and community media arise how they develop in particular ways and in particular places and how they can enrich our understanding of the broader media landscape and its place in society The 50 chapters present a range of theoretical and methodological positions and arguments to demonstrate the dynamic challenging and innovative thinking around the subject locating media theory and practice within the broader concerns of democracy citizenship social exclusion race class and gender In addition to research from the UK the US Canada Europe and Australia the Companion also includes studies from Colombia Haiti India South Korea and Zimbabwe enabling international comparisons to be made and also allowing for the problematisation of traditional often Western approaches to media studies By considering media practices across a range of cultures and communities this
