Cli Fi Novel Hardcover:

The Noah Myth in Twenty-first-century Cli-fi Novels Helen E. Mundler, 2022 Breaks new ground by both analyzing the literary qualities of four recent rewritings of the Noah myth and contextualizing their concern with climate change within the wider crises of the Anthropocene. With the rise of concern about global warming in recent years, climate change fiction or cli fi has become increasingly important both as a publishing phenomenon and as an area of academic study and research. Flood narratives have become a subsection of cli fi in their own right. This book proposes new readings of four recent rewritings of the Noah myth: *Odds Against Tomorrow* by Nathaniel Rich, Margaret Atwood's *Maddaddam* trilogy, *When the Floods Came* by Clare Morrall, and *The Flood* by Maggie Gee. Helen E. Mundler's book takes into account the wealth of criticism that has appeared on these texts in recent years, acknowledging important contributions from critics including Adam Trexler, Adeline Johns Putra, and Astrid Bracke. However, her book's strength is that it takes a new approach, going beyond the topicality of the texts and treating them not just as ideological statements but giving them their due as literary artifacts. While the importance of climate change is beyond debate, this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene. y of the texts and treating them not just as ideological statements but giving them their due as literary artifacts. Science Fiction and Climate Change Andrew Milner, J. R. Burgmann, 2020 This is a timely comprehensive and thoroughly researched study of climate fiction from around the world, including novels, short stories, films, and other formats. Informed by a sociological perspective, it will be an invaluable resource for students and scholars looking to enter and expand the field of climate fiction studies.

Green Matters, 2019-11-26 *Green Matters* offers a fascinating insight into the regenerative function of literature with regard to environmental concerns. Based on recent developments in ecocriticism, the book demonstrates how the aesthetic dimension of literary texts makes them a vital force in the struggle for sustainable futures. Applying this understanding to individual works from a number of different thematic fields, cultural contexts, and literary genres, *Green Matters* presents novel approaches to the manifold ways in which literature can make a difference. While the first sections of the book highlight the transnational focus on Canada, the last section allows a more specific exploration of how themes, genres, and literary forms develop their own manifestations within a national context. Through its unifying ecocultural focus and its variegated approaches, the

volume is an essential contribution to contemporary environmental humanities **Cli-fi** Axel Goodbody, Adeline Johns-Putra, 2018 Proto Climate Change Fiction Speculative future fiction dystopian and post apocalyptic narratives Realist narratives set in the present and near future Thriller crime conspiracy social satire Children s film and young adult novels Literary modernism Notes on Contributors **Awake in the Floating City** Susanna Kwan, 2025-05-13 A MOST ANTICIPATED BOOK FROM PEOPLE MAGAZINE An utterly transporting debut novel about the unexpected relationship between an artist and the 130 year old woman she cares for two of the last people living in a flooded San Francisco of the future the home neither is ready to leave An astonishing work of art This is the kind of book that changes you that leaves you seeing more vividly and living more fully in its wake Rachel Khong author of Real Americans Bo knows she should go Years of rain have drowned the city and almost everyone else has fled Her mother was carried away in a storm surge and ever since Bo has been alone She is stalled an artist unable to make art a daughter unable to give up the hope that her mother may still be alive Half heartedly she allows her cousin to plan for her escape but as the departure day approaches she finds a note slipped under her door from Mia an elderly woman who lives in her building and wants to hire Bo to be her caregiver Suddenly Bo has a reason to stay Mia can be prickly and yet still she and Bo forge a connection deeper than any Bo has had with a client Mia shares stories of her life that pull Bo back toward art toward the practice she thought she d abandoned Listening to Mia allowing her memories to become entangled with Bo s own she s struck by how much history will be lost as the city gives way to water Then Mia s health turns and Bo determines to honor their disappearing world and this woman who s brought her back to it a project that teaches her the lessons that matter most how to care how to be present how to commemorate a life and a place soon to be lost forever **Again, Dangerous Visions: Essays in Cultural Materialism** Andrew Milner, 2018-08-07 Again Dangerous Visions Essays in Cultural Materialism brings together twenty six essays charting the development of Andrew Milner s distinctively Orwellian version of cultural materialism between 1981 and 2015 The essays address three substantive areas the sociology of literature cultural materialism and the cultural politics of the New Left and utopian and science fiction studies They are bookended by two conversations between Milner and his editor J R Burgmann the first looking back retrospectively on the development of Milner s thought the second looking forward prospectively towards the future of academia the political left and science fiction *Loosed Upon the World* John Joseph Adams, 2015-09-15 An anthology of twenty six short stories exploring the future of climate change and its effects on life on Earth includes contributions from Margaret Atwood Paolo Bacigalupi and Kim Stanley Robinson **Intermedial Ecocriticism** Jørgen Bruhn, Niklas Salmose, 2023-12-11 This is the first book that combines intermedial studies with ecocriticism in order to critically reflect upon the risks and possibilities of representing the climate crisis in several different media and art forms *Artificial Wisdom* Thomas R. Now the whole planet is both burning and drowning and the nations of the world decide to elect a global leader to steer humanity through the climate apocalypse. The final two candidates: a former U.S. president and Solomon, the first artificial intellect to hold political office. But as Election Day races closer, Solomon's creator is murdered and it's up to Tully to find the culprit. Soon Tully is unraveling a conspiracy that goes to the highest levels. As the investigation heats up and the planet hurtles ever closer to the brink, Tully must find the truth and convince the world to face it. Because salvation has a price, but is humanity willing to pay it?
