Cowley, 2022-09-30 Cognition is usually associated with brain activity

Undoubtedly some brain activity is necessary for it to function. However the last thirty years have revolutionized the way we intend and think about cognition. These developments allow us to think of cognition as distributed in the sense that it needs tools, artifacts, objects and other external entities to allow the brain to operate properly. Organizational Cognition: The Theory of Social Organizing takes this perspective and applies it to the organization by introducing a model that defines the elements that allow cognition to work. This model shows that cognition needs the combined and simultaneous presence of micro aspects i.e. the biological individual and macro super structural elements e.g. organizational climate, culture, norms, values, rules. These two become practice of cognition as they materialize in a meso domain; this is any action that allows individuals to perform their daily duties. Due to the micro-meso-macro interactions this has been called the 3M Model. Most of what happens in the meso domain relates to exchanges between two or more people i.e. it is a social activity. This is usually mentioned in the perspectives above but it is rarely explored. By bringing meso activities to the center of cognition the book develops and presents the Theory of Social Organizing. Not only this is useful to organizational scholars but it also opens a new path for cognition research.

Life on the Invisible Line John Bouchard, 2013-11. John Bouchard was born in 1934 in Falcon Bridge, Ontario. From an early age John displayed artistic ability. As a young child he drew detailed pictures displaying talent far beyond his age. As an older child he began to paint pictures which caught the attention of many. In 1957 he attended The Southern Alberta College of Fine Arts in Calgary, Alberta where he studied graphic art and design. Upon completion he worked as a sign designer creating signs for various businesses. John had always had a penchant for the outdoors. He left his sign design job pursuing his love for the wilderness. He bought a trap line near Petrie, Ontario. He enjoyed trapping, being his own boss and working in the wilderness. That summer he worked for the Department of Lands and Forests as a tower man at the Loch Erne fire tower near Shebandowan Lake. In 1967 his work with Lands and Forests led him to a summer job as Ranger at the Cache Bay Quetico Park Ranger Station. During the winter of 1968 John accepted a position with a toy manufacturer in Chanhassen, Minnesota where he designed stuffed toys. Once again John was not content with an indoor job. In the spring of 1968 John acquired a seasonal job as Deputy Conservation Officer at Saganaga Lake. During the winters he trapped in the same area. In 1985 John was promoted to Conservation Officer and was posted in Nakina, Ontario. A few years later he was transferred to Upsala, Ontario. John retired in 1994 and currently lives in Thunder Bay, Ontario.
