Smart Ports Weijian Mi, Yuan Liu, 2022-03-12 This book demonstrates the concept of ecological system of the smart ports The innovation is emphasized as the essence of the ecological system as well as the prerequisite and foundation of sustainable development of smart ports The main supporting technologies of smart ports including cyber physical system middle office system blockchain

artificial intelligence machine vision AR VR system simulation and emulation digital monitoring and diagnosis etc are introduced with concepts and development descriptions as well as practical application cases It could be used as demonstration and reference for the administrative staff engineers and technicians as well as researchers in construction and operation of smart ports *Analyses of Successful Provincial, State, and Local Bicycle and Pedestrian Programs in Canada and the United States* ,1993 Bicycles in American Highway Planning Bruce D. Epperson,2014-11-17 The United States differs from other developed nations in the extent to which its national bicycle transportation policy relies on the use of unmodified roadways with cyclists obeying the same traffic regulations as motor vehicles This policy known as vehicular cycling evolved between 1969 when the 10 speed boom saw a sharp increase in adult bicycling and 1991 when the American Association of State Highway and Transportation Officials adopted an official policy that on road bikeways were not desirable This policy resulted from a growing realization by highway engineers and experienced club cyclists that they had parallel interests the cyclists preferred to ride on highways because most bikeways were not designed for high speeds and pack riding and the highway engineers did not want to divert funding from roadways to construct bikeways Using contemporary magazine articles government reports and archival material from industry lobbying groups and national cycling organizations this book tells the story of how America became a nation of bicyclists without bikeways *The Bicycle Touring Manual* Rob Van der Plas,1987 For those who will be taking medium or long trips via bicycle this is a guide to equipment gear riding techniques and safety measures Also use the author s *Roadside Bicycle Repairs The Simple Guide to Fixing Your Bike* 1987

The Primary ICT & E-learning Co-ordinator's Manual James Wright,2007-05-23 This book is absolutely wonderful It will be my new Bible I have used it loads already in preparation for my ICT Mark assessment Taking on the role of ICT co ordinator can be quite a daunting task but this step by step guide breaking things down into manageable chunks will be very supportive I love the blogging idea the comments made by the characters are very realistic This is just what new co ordinators need I wish I d had this when I took over co ordination of ICT Christine Beedham Primary ICT adviser Warrington Every primary school has the daunting task of embedding ICT and e learning into their curriculum This practical manual is the first part of a two volume set that together makes up a detailed two year training programme for primary ICT and e learning co ordinators The books combine key strategies and information with a weblog discussion from a group of virtual co ordinators who share their problems fears and successes over the two year programme based on the author s wide experience of working with new co ordinators and experienced staff on training programmes and in general support Book 1 is designed specifically for co ordinators new to the role who need starting points and broad support It presents a structured training programme split over three terms guiding co ordinators through the key stages of developing and implementing ICT policy and practice including o auditing existing school systems o reviewing and revising the school policy for ICT o reviewing the ways in which ICT is used as a teaching and learning tool across the curriculum o examining methods for the

management of technical support services o establishing a clear overview of standards in ICT including a review of assessment procedures moderating work monitoring teaching and learning and creating E Portfolios The books have a companion website which will offer downloadable versions of the photocopiable sheets from the book as well as links to other sources of help and advice Intelligent Drilling Using a Smart-tool System Dennis S. Bray,1988 The New Woman and Technologies of Speed in Fin-de- Siècle Literature Eva Chen,2024-11-01 This is the first literary study on the New Woman s interaction with modern speed culture through use of the typewriter and the bicycle These technologies of speed are among the earliest to be associated with middle class women exposing them to the discipline of mechanized speed while allowing for the construction of a new machine savvy sped up and energized female subjectivity Used for women s office work and daily movement they demand from their women operators a response and adaptation to speed right from the beginning The ability to catch up with imitate adjust to and finally master this mechanized speed is the key to the New Woman s enlarged freedom in the modern city By examining New Woman literature penned by George Gissing H G Wells Grant Allen Geraldine Edith Mitton and Mrs Edward Kennard and stories and comments published in popular magazines this book examines how mechanized speed works on the New Woman typist and cyclist first as discipline and control in typewriting then as commodity and conspicuous display in cycling and finally as rejuvenation stimulation and active thrill Being fast having speed and adjusting to the shocks as well as excitement of techno aided speed is a crucial part of what makes the New Woman new as she stakes a claim to modern speed culture **An Analysis of the Role of Cycling in Sustainable Urban Mobility** Ricardo Marqués,2020-04-30 This book analyses the reasons why cycling is returning to cities around the world as an essential element in solving and overcoming the crisis of the dominant car centric model of urban mobility with its known adverse consequences of congestion pollution and urban space consumption It argues that it is not possible to solve this crisis without giving a central role to the bicycle both as a mode of transport in itself and as an integrating and cohesive element of other forms of transport The bicycle due to its special characteristics of autonomy simplicity and energy efficiency must be a key part of any sustainable urban mobility project It not only returns human scale to the city but is also essential for the effective design of any intermodal system of sustainable metropolitan public transport
