Children's Picture Books and Contemporary Egyptian Society Yasmine Motawy, 2025-02-25 A social and political history of two decades of Egyptian neoliberalism through children s picture books published in Egypt in the post 2000 era Children s picture books are some of the most transparently ideological materials available to parents and educators and as cultural objects they are an expression of the zeitgeist of a particular era They reveal much about the hopes values and aspirations of the society that produces them as well as that society s vision of its place in the wider world at large Children s Picture Books and Contemporary Egyptian Society examines a new wave of Egyptian picture books that was published in the current century to see how these books responded to larger societal trends and transformations in Egypt as well as to explore the ideologies that lie behind them Yasmine Motawy argues that a host of factors including the growth of gated communities and international schooling the proliferation of lucrative literary awards returning Gulf migrants television dramas and nationwide reading advocacy initiatives helped give rise to a new kind of children s picture book in Egypt Motawy focuses on three clusters of selected picture books to investigate the extent to which these books reproduce hegemonic discourses or alternatively open up new horizons of childhood agency and societal transformation The first cluster includes books that directly socialize the child by showing them how things are done in both the domestic sphere and the increasing globalized spaces that children frequent with their families The second cluster aims at reframing cultural notions around femininity through the retelling of folk and fairy tales while the third cluster addresses children s abilities to assess the impact of their actions on their environment and invites them to examine their personal suitability to positions of power and stewardship

THE GIANT CRAB Children's Colouring Book John

Halsted,2017-07-16 The purpose behind this book is not only to give children a lot of enjoyment by freely splashing colour on a page but also to introduce them to one of the UK s best known illustrators W Heath Robinson who is more famous for his illustrations of elaborate machines than he is for illustrations of children s books Herein you will find 51 illustrations he made for the book of old Indian tales titled The Giant Crab Then you may ask Why is this an eBook and not a paperback The answer is quite simple Instead of colouring in a picture once and then throwing away the book when fully used with this ebook you will be able to print off as many of the 51 images as you like and as often as you like ad infinitum In this book children are encouraged to fill in the white spaces on the 51 images At the rear we have provided a few blank templates which children

can use to create their own images which can be printed off time and again A few of the original images now over 120 years old were quite small when digitised resulting in blurred outlines when they were enlarged Where this has occurred we have endeavoured to use just about every trick in the digital graphics book to retain the integrity of the outlines All pages have been created to A4 size which is 29 7cm x 21cm or 8 27 x 11 69 The closest American size is Size A or 8 5 x 11 0 William Heath Robinson 31 May 1872 13 September 1944 was an English cartoonist and illustrator best known for drawings of ridiculously complicated machines designed for achieving simple objectives Unfortunately it is for his exquisite children s illustrations which feature in this book that he is less well known In the UK the term Heath Robinson entered the popular vernacular during the 1914 1918 Great War as a description of any unnecessarily complex and implausible contrivance much as Rube Goldberg machines came to be used in the US from the 1920s onwards as a term for similar designs *Handbook of Research on Digital Tools for Writing Instruction in K-12 Settings* Anderson, Rebecca S., Mims, Clif, 2014-04-30 More emphasis is being placed on writing instruction in K 12 schools than ever before With the growing number of digital tools in the classroom it is important that K 12 teachers learn how to use these tools to effectively teach writing in all content areas The Handbook of Research on Digital Tools for Writing Instruction in K 12 Settings will provide research about how students use digital tools to write both in and out of school settings as well as discuss issues and concerns related to the use of these learning methods This publication is beneficial to educators professionals and researchers working in the field of K 12 and teacher education

Price, 2023-10-31 *Speech and Silence in Contemporary Children s Literature* brings a fresh perspective to a central literary question Who speaks by examining a variety of represented silences These include children who do not speak do not yet speak effectively or speak on behalf of others A rich and unexamined literary archive explores the problematics of children who are literally silent or metaphorically so because they cannot communicate effectively with adults or peers This project centers children s literature in the question of voice by considering disability gender race and ecocriticism Children s literature rests on a paradox at the root of its own genre it is produced by an adult author writing to a constructed idea of what children should be By reading a range of contemporary children s literature this book scrutinizes how such texts narrate the child s journey from communicative alterity to a place of empowered adult speech Sometimes the child s verbal enclosure enables privacy and resistance At other times silence is coerced or imposed or arises from bodily impairment Children may act as intermediaries speaking on behalf of species that cannot Recently we have seen children exercise their voices on the world stage and as authors In all cases the texts analyzed here reveal speech as a minefield to be traversed Children who talk too much too little or with insufficient expertise pose problems to themselves and others Implicitly and sometimes explicitly they attempt to hold adults to account inside and outside the text *Speech and Silence in Contemporary Children s Literature* addresses this underconceptualized subject in what will be an important text for scholars of children s literature childhood studies English disability studies gender studies race studies ecopedagogy and education Elementary Children's Literature Nancy A. The Big Smallness Michelle Ann Abate,2016-02-12 This book is the first full length critical study to explore the rapidly growing cadre of amateur authored independently published and niche market picture books that have been released during the opening decades of the twenty first century Emerging from a powerful combination of the ease and affordability of desktop publishing software the promotional marketing and distribution possibilities allowed by the Internet and the tremendous national divisiveness over contentious socio political issues these texts embody a shift in how narratives for young people are being creatively conceived materially constructed and socially consumed in the United States Abate

explores how titles such as *My Parents Open Carry* about gun laws *It's Just a Plant* about marijuana policy and *My Beautiful Mommy* about the plastic surgery industry occupy important battle stations in ongoing partisan conflicts while they are simultaneously changing the landscape of American children's literature. The book demonstrates how texts like *Little Zizi* and *Me Tarzan You Jane* mark the advent of not simply a new commercial strategy in texts for young readers; they embody a paradigm shift in the way that narratives are being conceived, constructed, and consumed. Niche market picture books can be seen as a telling barometer about public perceptions concerning children and the social construction of childhood, as well as the function of narratives for young readers in the twenty-first century. At the same time, these texts reveal compelling new insights about the complex interaction among American print culture, children's reading practices, and consumer capitalism. Amateur-authored, self-published, and specialty subject titles reveal the way in which children, childhood, and children's literature are both highly political and heavily politicized in the United States. The book will be of interest to scholars and students in the fields of American Studies, children's literature, childhood studies, popular culture, political science, microeconomics, psychology, advertising, book history, education, and gender studies.

Literature for Young Adults Joan L. Knickerbocker, 2017-03-15

Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction, poetry, short stories, and drama, cover art, picture books, illustrated literature, and graphic novels and film. It recognizes that while films can be used to complement print literature, they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language, including traditional elements as well as metafictional terms, enables readers to share in a literary conversation with their students and others when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.
