Jan Guichelaar

Sterrenhemel Dutch F Kaiser:

Willem de Sitter Jan Guichelaar, 2018-09-21 This is a thorough very readable and excellently illustrated biography of Willem de Sitter 1872 1934 one of the most influential astronomers of his time and also a co author and correspondent of Einstein Authored by a physicist and skilled writer the book gives a beautiful and accessible description of the physics debated by Einstein and de Sitter as well as the latter's alternative cosmological model later known as the De Sitter Universe But this is just part of a fascinating and varied life story involving numerous contributions to astronomy as well as many places and personalities of early 20th century physics The book will appeal to all those interested in astronomy and physics and their history

A History of Science in the Netherlands Klaas van Berkel, Albert van Helden, L.C. Palm, 2023-07-03 In the 400 years of its modern history the Netherlands has produced a distinguished array of eminent mathematicians scientists and medical researchers including many Nobel prize winners and other internationally recognised figures from Stevin Snel and Huygens in the 17th century to Lorentz Kammerlingh Onnes Buys Ballot De Vries de Sitter and Oort in the 19th and 20th centuries Yet it has often been noted that the history of science in the Netherlands is underrepresented in the international literature The handbook *A History of Science in The Netherlands* aims to correct this situation by providing a chronological and thematic survey of the field from the 16th century to the present essays on selected aspects of science in the Netherlands and reference biographies of about 65 important Dutch scientists Written by more than 10 experts from Europe and North America the handbook is the standard English language reference work for the field
