

SERVICE MANUAL

050 AV, 051 AV, 051 AV electronic,
075 AV electronic,
076 AV electronic

FOREWORD

This Service Manual covers model 050, 051 and 075 chain saws up to machine number 5 277 720 as well as later machines unless technical information bulletins have been issued in the meantime with updated repair procedures.

With the exception of the rewind starter and the ignition system, the new 076 and the 075 are identical. The relevant engineering changes are outlined in technical information bulletin number 27-80.

In the event of faults it is quite possible that a single fault may have several causes. It is therefore advisable to consult the "Troubleshooting Chart" in each chapter when tracing faults. We also recommend that you make use of the exploded views in the illustrated parts lists when carrying out repair work.

This service manual and all technical information bulletins are intended exclusively for the use of STIHL servicing dealers and staff and must not be passed on to third parties.

Repair work is made considerably easier if the chain saw is mounted on assembly stand 5910 650 3100. The saw is easily attached to the stand by means of the two bar mounting studs and collar nuts.

While on the assembly stand the chain saw can be swivelled into any required position within a certain range to suit the repair in question. This not only has the advantage of keeping the component in the best position for the repair but also leaves both hands free for the work and thus effects a considerable time saving.

SPECIAL TOOL MANUAL

Our special tool manual illustrates and lists the part numbers of all available machine-related tools as well as general purpose tools for all machines.

The special tool manual is available in various languages and can be ordered by quoting the appropriate part number listed hereunder.
