Arbe, 2019-04-30 What propelled me to write this book In addition to being nudged by Spirit and my own Inner Guidance I took a look around What is this fixation on race sex gender religion class that preoccupies so many of our species Where is our plentiful joy and wonder at the magnificence of Creation More importantly what can we do about any lack of wonder Who are we anyway and why are we here Personally I am fascinated by the diversity and combinations in which we humans flourish with our multitude of talents looks and abilities I love our creativity our amazingly diverse yet similar energies and vibrations To me this variety is something to be honored and treasured a reflection of the artistry and abundance of Creation Despite the beauty that exists within diversity racial sexual gender and so on some of us appear to feel believe and act as if our variety is an issue going so far as to behave inimically toward others who outwardly look or seem different From where do these attitudes stem and where do these perceptions lead Is separation along color sex gender religious lines what anyone truly desires in the core of his/her being It is indicative of a culture with distorted ideas about race that people can even figure out what looking alike and looking different mean How are these differences of coloration interpreted In a culture that loved our multiplicity of being we would have a different conception of alike and different as well as different feelings and vibrations within ourselves We are in a new millennium We have the time space place resonance to be the enlightened beings that we are The choice is open to each and every one of us *The Art of Deception is the Rule of Life* Albert Amao Soria Ph.D., 2024-07-09 This book is a spiritual journey of self discovery for those open minded and willing to embrace the truth even if it means confronting deep rooted false beliefs inherited from our ancestors It is a call to step out of the comfort of

blissful ignorance and into the light of personal enlightenment Ignoring the truth may provide temporary solace but it can lead to greater despair and fear in the long term This existential gap is usually filled with religions myths and legends however these stories may not be entirely factual Nevertheless they provide solace and a sense of purpose in life so they are often considered well intentioned pious fiction Many desire to know the truth but few are genuinely prepared to handle it This book challenges many core beliefs and convictions held as accurate it may lead to existential conflict As King Solomon wisely said For with much wisdom comes much sorrow the more knowledge the more grief Ecclesiastes 1:18 These words resonate with the essence of this book inviting you to embark on a journey of self discovery and truth seeking It highlights the transformative potential of this process as those who can confront the truth honestly undergo a psychological catharsis a liberation of erroneous assumptions Thus this book is not for the faint of heart More than 2 500 years ago Buddha stated that life is an illusion and today s most accurate science quantum physics asserts that we live in virtual reality The truth can challenge our deepest convictions and induce confusion because we live based on false assumptions imposed by our ancestors mass media outdated education systems and traditional erroneous beliefs
