Foresight Laura Anna Costanzo, Robert Bradley MacKay, 2009 This important Handbook explores and evaluates dynamic environments and the appropriate strategic responses to them in the 21st century Drawing together a collection of 29 original chapters the Handbook makes an invaluable contribution to theory and practice by stimulating disciplined rigorous and imaginative enquiry into the relationship between strategy and foresight Leading scholars in the field of strategic management are brought together to offer innovative and multi disciplinary perspectives on the past present and future of strategy formation and foresight In so doing they challenge research in four key areas strategy and foresight processes strategy innovation for the future understanding the future and strategically responding to the future The Handbook of Research on Strategy and Foresight is a comprehensive resource that will be invaluable for academics students and practitioners interested in this important phenomenon Faith-Based Education That Constructs HeeKap Lee, 2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In Faith Based Education that Constructs readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism
