The Oxford Handbook of Papyrology Roger S. Bagnall, 2011-12 Thousands of documentary and literary texts written on papyri and potsherds in Egyptian Greek Latin Aramaic Hebrew and Persian have transformed our knowledge of many aspects of life in the ancient Mediterranean and Near Eastern worlds Here experts provide a comprehensive guide to understanding this ancient documentary evidence Eastern Christianity J. Edward Walters, 2021-11-18 English translations of Syriac Armenian Georgian Arabic Coptic and Ethiopic Christian texts from late antiquity to the early modern period In order to make the writings of Eastern Christianity more widely accessible this volume offers a collection of significant texts from various Eastern Christian traditions many of which are appearing in English for the first time The internationally renowned scholars behind these translations begin each section with an informative historical introduction so that anyone interested in learning more about these understudied groups can more easily traverse their diverse linguistic cultural and literary traditions A boon to scholars students and general readers this ample resource expands the scope of Christian history so that communities beyond Western Christendom can no longer be ignored Contributors Jesse S Arlen Aaron M Butts Jeff W Childers Mary K Farag Philip Michael Forness John C Lamoreaux Jeanne Nicole Mellon Saint Laurent Erin Galgay Walsh J Edward Walters and Jeffrey Wickes

Handbook for Classical Research David Schaps, 2010-09-13 One of the glories of the Greco Roman classics is the opportunity that they give us to consider a great culture in its entirety but our ability to do that depends on our ability to work comfortably with very varied fields of scholarship The Handbook for Classical Research offers guidance to students needing to learn more about the different fields and subfields of classical research and its methods and resources The book is divided into 7 parts The Basics Language The Traditional Fields The Physical Remains The Written Word The Classics and Related Disciplines The Classics since Antiquity Topics covered range from history and literature lexicography and linguistics epigraphy and palaeography to archaeology and numismatics and the study and reception of the classics Guidance is given not only to read for example an archaeological or papyrological report but also on how to find such sources when they are relevant to research Concentrating on how to topics the Handbook for Classical Research is a much needed resource for both teachers and students

Philodemus Examines later historical figures who were influenced by Epicureanism Explores the Herculaneum papyri and the inscription of Diogenes of Oenoanda Book jacket **The Oxford Handbook of Egyptology** Ian Shaw, Elizabeth Bloxam, 2020 The Oxford Handbook of Egyptology offers a comprehensive survey of the entire study of ancient Egypt from prehistory through to the end of the Roman period Transcending conventional boundaries between archaeological and ancient textual analysis and bringing together 63 chapters that range widely across the various archaeological philological and cultural sub disciplines authored by recognized experts in their respective fields it highlights the extent to which the discipline has diversified and stresses the need for it to seek multidisciplinary methods and broader collaborations if it is to remain contemporary and relevant Authoritative yet accessible it is an invaluable resource for scholars students and general readers alike *Coptic Interference in the Greek Letters from Egypt* Victoria Beatrix Maria Fendel, 2022 A detailed analysis of the syntax of early Byzantine Greek texts from Egypt that traces the bilingual interference in the syntax of verbs adverbial phrases clause linkage as well as in semi formulaic expressions and formulaic frames *The Demades Papyrus (P.Berol. inv. 13045)* Davide Amendola, 2022-10-03 Despite the significance of its contents the so called Demades papyrus P Berol inv 13045 has received scarce scholarly attention since the 1923 editio princeps by Karl Kunst This unique late second century BCE document of almost 430 lines was found in the Egyptian chora but it is supposed to have been written in Alexandria where it probably served as a textbook for the highest level of rhetorical education Besides shedding new light on its find circumstances and physical aspects the volume offers a full re edition and commentary of the two adespota texts contained in it namely a eulogy of the Lagid monarchy and a historical work consisting of a dialogue between Demades and his prosecutor in the trial of 319 BCE at the court of Pella The aim of the accompanying introduction is to address the question of the origin nature and purpose of such fragments and of the collection itself as well as to show to what extent the papyrus contributes to a better understanding of some of the main historical events of the early Hellenistic period This book is thus meant to fill a significant gap in Classical scholarship all the more so as a close investigation of most of the topics dealt with therein has hitherto been lacking *The Oxford Handbook of Roman Law and Society* Paul J. du Plessis, Clifford Ando, Kaius Tuori, 2016 The Handbook is intended to survey the landscape of contemporary research and chart principal directions of future inquiry Its aim is to bring to bear upon Roman legal study the full range of intellectual resources of contemporary legal history from comparison to popular constitutionalism from international private law to law and society This unique contribution of the volume sets it apart from others in the field Furthermore the volume brings the study of Roman law into closer alignment and thus into dialogue with historical sociological and anthropological research in law in other periods The volume is therefore directed not simply to ancient historians and legal historians already focused on the ancient world but to historians of all periods interested in law and its complex and multifaceted relationship to society
