The Penguin Guide To The Superstitions Of Britain And Ireland

David Atkinson, Steve Roud

The Penguin Guide To The Superstitions Of Britain And Ireland:

The Penguin Guide to the Superstitions of Britain and Ireland Stephen Roud, Steve Roud, 2006-04-06 Drawing extensively on literary sources from medieval times to the present this survey not only explains what people have believed and why but when superstitions arose which parts of the country adopted them how they evolved and what people today believe Originally published 2003

Traditional Witchcraft for Fields and Hedgerows Melusine Draco, 2012-03-16 Both FieldCraft and its companion title WoodCraft assume a certain degree of magical understanding on the part of the reader with regard to routine divination spell and Circle casting For this reason the text does not include the basic elements of rudimentary witchcraft that can be found in titles similar to Mean Streets Witchcraft and Sea Change The books have been written in tandem to avoid any unnecessary repetition and to provide cross references where necessary

The Archaeology of the Royal Flying Corps Melanie Winterton, 2022-10-07 Winterton's book is a good introductory effort on the haptic environment of World War I aviators and their personal artifacts The Journal of the Air Force Historical Foundation Archaeology provides a fascinating insight into the lives of the aviators of the First World War Their descriptions of the sensation of flying in the open cockpits of the primitive warplanes of the day and the artifacts that have survived from these first years of aerial combat give us a powerful sense of what their wartime service was like and chart the beginning of our modern understanding of aviation But the subject hasn't been explored in any depth before which is why Melanie Winterton's pioneering book is so timely Hers is the first study of the trench art souvenirs and lucky mascots associated with the Royal Flying Corps which in an original way tell us so much about the experience of flying on the Western Front a century ago Extensive quotations from the memoirs of these early airmen are combined with an analysis of the artifacts themselves They convey something of the fear and anxiety the airmen had to grapple with on a daily basis and bring out the full significance of the poignant souvenirs they left behind Pieces of crashed aeroplane wooden propellers strips of linen fragments of metal were recycled and circulated during the war and afterwards became the focus of attention in the domestic home As Melanie Winterton demonstrates these items connected the living with the deceased which is why they are so strongly evocative even today

Good Neighbours Beth Hersant, 2015-04-28 A tribe on the verge of starvation A threat from men's oldest nightmares It's time to pick a side Exploring the forgotten tales of our ancestors Good Neighbours combines folklore myth and theology to add a new dimension to the famous historical tales of Great Britain Touching upon legend as well as facts this is a comprehensive fictionalised story that sheds light on how things came to be An epic journey through the ages Good Neighbours is a fantasy novel woven with the fascinating past of the British population beginning at the Neolithic era in 7000 BC and spanning more than nine thousand years to the modern day The Iron Age Saxon Invasion and the Normans are just a few of the wide array of topics covered in this unique novel Delving into the violent periods of British history Good Neighbours has a depth of plot and character that will prove a compelling read for fans of both history and fantasy fiction

Inspired by authors such as Milan Kundera Harper Lee and C S Lewis it provides an action packed account of both the famous and forgotten aspects of British history including those that are often omitted from museum displays and conventional accounts In doing so it crafts a history of Britain unlike any other **Life-Writes** Suzanne Ruthven,2012-05-16

The second most common question a writer is asked is where do your ideas come from The first is Do you make any money from it Experienced writers don't go looking for ideas ideas come to them An experienced writer just has the knack of spotting what makes a good story or what will make a good story once it's been given the right spin because none of us if we're honest will let reality get in the way of a saleable piece of work Editors are looking for an element of action drama or surprise even in non fiction It's what catches their attention and makes them pause to read further and the key to any editor's heart is originality Not necessarily a new departure in style or genre but a refreshing and original slant on a popular theme Life Writes helps you to find and develop ideas with editor appeal *Thomas Hardy and Victorian Communication* Karin Koehler,2016-05-25

This book explores the relationship between Thomas Hardy's works and Victorian media and technologies of communication especially the penny post and the telegraph Through its close analysis of letters telegrams and hand delivered notes in Hardy's novels short stories and poems it ties together a wide range of subjects technological and infrastructural developments material culture individual subjectivity and the construction of identity the relationship between private experience and social conventions and the new narrative possibilities suggested by modern modes of communication *Street Literature of the Long Nineteenth Century* David Atkinson,Steve Roud,2017-08-21

For centuries street literature was the main cheap reading material of the working classes broadsides chapbooks songsters prints engravings and other forms of print produced specifically to suit their taste and cheap enough for even the poor to buy Starting in the sixteenth century but at its chaotic and flamboyant peak in the nineteenth street literature was on sale everywhere in urban streets and alleyways at country fairs and markets at major sporting events and holiday gatherings and under the gallows at public executions For this very reason it was often despised and denigrated by the educated classes but remained enduringly popular with the ordinary people Anything and everything was grist to the printers mill if it would sell A penny could buy you a celebrity scandal a report of a gruesome murder the last dying speech of a condemned criminal wonder tales riddles and conundrums a moral tale of religious danger and redemption a comic tale of drunken husbands and shrewish wives a temperance tract or an ode to beer a satire on dandies an alphabet or reed a ma daisy reading made easy to teach your children an illustrated chapbook of nursery rhymes or the adventures of Robin Hood and Jack the Giant Killer Street literature long held its own by catering directly for the ordinary people at a price they could afford but by the end of the Victorian era it was in terminal decline and was rapidly being replaced by a host of new printed materials in the shape of cheap newspapers and magazines penny dreadful novels music hall songbooks and so on all aimed squarely at the burgeoning mass market Fascinating today for the unique light it shines on the lives of the ordinary people of the age street

literature has long been neglected as a historical resource and this collection of essays is the first general book on the trade for over forty years *The Prehistories of Baseball* Seelochan Beharry,2016-03-09 Baseball s roots lie deep in our ancestral past The ancient arts of throwing distance warfare hitting close quarters combat and running attack and retreat were woven into the earliest forms of baseball Early humans recognized the importance of the sun and sought to placate it with sacrificial offerings imitating its movements and deifying it Myths and relics of these foundational practices and beliefs were carried westward across the Old World by Indo European peoples Games for the early British and Continental Europeans notably the Celts and Druids served military religious social and educational needs As the Celts and Druids came under the control of the Roman Empire and later the Christian Church their customs and practices including games fell out of favor Despite persecution some folk games survived the millennia under such names as stool ball tut ball and base ball Descendants of these peoples brought their variant games to the New World where the standardization of various informal rules led to their rapid spread Baseball with its underlying beliefs superstitions and practices still brings us together with familiar and comforting rituals as we assemble under the sun **Traditional Witchcraft for Urban Living** Melusine Draco,2012-02-24 For the witch whose career confines them to an urban environment regular Craft practice may often seem like a futile gesture especially if home is a small gardenless flat Even the suburbs can be magically incapacitating if there is constant noise from traffic and neighbours People work long hour without having the opportunity to notice the subtle changing of the seasons Weekends are a constant battle with family domestic chores and socialising It s no wonder that the urban witch has little time left for magical and spiritual development Traditional Witchcraft for Urban Living deals with the constant barrage of psychic problems that confront the urban witch on a daily basis Based on the teachings of a traditional Craft background the author successfully manages to blend the Old Ways with practical contemporary practice This book is part of the Traditional Witchcraft Series Other titles in the series are Traditional Witchcraft for the Seashore Jan 2012 Traditional Witchcraft for Fields and Hedgerows Mar 2012 and Traditional Witchcraft for the Woods and Forests Mar 2012 Demonic County Durham: Axe Murder in Ferry-Hill near Durham, 1682 Darrell S. Nixon,2016-02-17 25th January 1682 3 A sad cruel murder comitted by a boy about eighteen or nineteen years of age nere Ferryhill nere Durham being Thursday at night Over 300 years ago Ferryhill an obscure town in the south of County Durham played host to one of the most horrid and tragic murders in the county s history A farm servant murdered the three children of his master in cold blood with an axe It was described in a London print as the most horrid and barbarous murder that ever was heard of in the North or elsewhere There was no motive for the crime and nothing in the murderer s character to suggest that such an event could take place and yet in his later confession the perpetrator said that he acted only on the suggestion of the enemy The Devil For the first time since the murders all of the evidence leading up to at the time of and after the event is collected together as one of the most intriguing investigations into this sad and macabre event and lays bare some interesting information that have never been

known to the public before Did the Devil come to Ferryhill Read on if you dare

This is likewise one of the factors by obtaining the soft documents of this **The Penguin Guide To The Superstitions Of Britain And Ireland** by online. You might not require more times to spend to go to the books inauguration as well as search for them.
