William Edward Burghardt Du Bois

The Philadelphia Negro A Social Study:

The Philadelphia Negro (The Oxford W. E. B. Du Bois) W. E. B. Du Bois, 2014-02-01 The Philadelphia Negro A Social Study is a landmark in empirical sociological research Du Bois was the first sociologist to document the living circumstances of urban Black Americans The Philadelphia Negro provides a framework for studying black communities and it has steadily grown in importance since its original publication Today it is an indispensable model for sociologists historians political scientists anthropologists educators philosophers and urban studies scholars With a series introduction by editor Henry Louis Gates Jr and an introduction by Lawrence Bobo this edition is essential for anyone interested in African American history and sociology

The Philadelphia Negro W. E. B. Du Bois, 2010-11-24 In 1897 the promising young sociologist William Edward Burghardt Du Bois 1868 1963 was given a temporary post as Assistant in Sociology at the University of Pennsylvania in order to conduct a systematic investigation of social conditions in the seventh ward of Philadelphia The product of those studies was the first great empirical book on the Negro in American society More than one hundred years after its original publication by the University of Pennsylvania Press The Philadelphia Negro remains a classic work It is the first and perhaps still the finest example of engaged sociological scholarship the kind of work that in contemplating social reality helps to change it In his introduction Elijah Anderson examines how the neighborhood studied by Du Bois has changed over the years and compares the status of blacks today with their status when the book was initially published

The Philadelphia Negro W. E. B. Du Bois, 2010-03 It is my earnest desire to pursue this particular form of study far enough to constitute a fair basis of induction as to the present condition of the American Negro If for instance Boston in the East Chicago and perhaps Kansas City in the West and Atlanta New Orleans and Galveston in the Souths were studied in a similar way we should have a trustworthy picture of Negro city life Add to this an inquiry into similarly selected country districts and certainly our knowledge of the Negro would be greatly increased The department of history and economics of Atlanta University where I am now situated is pursuing certain lines of inquiry in this general direction I hope that funds may be put at our disposal for this larger and more complete scheme Finally let me add that I trust that this study with all its errors and shortcomings will at least serve to emphasize the fact that the Negro problems are problems of human beings ungrounded assumptions or metaphysical subtleties They present a field which the student must enter seriously and cultivate carefully and honestly And until he has prepared the ground by intelligent and discriminating research the labors of philanthropist and statesman must continue to be to a large extent barren and unfruitful WE B DuBois 1899

The Philadelphia Negro William E. B. Du Bois, 1976 The Philadelphia Negro William Edward Burghardt Du Bois, 2007 Originally published in 1899 this is one of the first works to combine the use of urban ethnography social history and descriptive statistics The issues the book raises and the evolution of DuBois's own thinking about the problems of black integration into American society sound strikingly contemporary This book has become a classic work in social science literature The Philadelphia Negro W. E. B. Du

Bois,2007-01-01 Originally published in 1899 The Philadelphia Negro is a sociological study of the blacks living in Philadelphia in 1896 7 DuBois was hired by the University of Pennsylvania to conduct the study under what some believe to be false pretenses Some suspect that the study was meant by those funding it to show how the black community was responsible for a number of problems within the city The report they received however was of quite a different nature The Philadelphia Negro was the first sociological study of black urban Americans ever conducted It detailed their lives their social structures their education their marriages and their jobs The study sought to illuminate ways in which philanthropy could help the people living in Philadelphia s Seventh Ward It did not presume as many people did at the time that blacks lived in poor conditions due to an innate weakness in their race This scholarly work serves as an excellent reference for students of history and sociology American writer civil rights activist and scholar WILLIAM EDWARD BURGHARDT DUBOIS 1868 1963 was the first black man to receive a PhD from Harvard University A cofounder of the NAACP he wrote a number of important books including Black Folk Then and Now 1899 and The Negro 1915

The Philadelphia Negro W. E. B. Dubois,2015-07-21 Excerpt from The Philadelphia Negro A Social Study In November 1897 I submitted to the American Academy of Political and Social Science a plan for the study of the Negro problems This work is an essay along the lines there laid down and is thus part of a larger design of observation and research into the history and social condition of the transplanted Africans The opportunity of making this particular study was due to the initiative of Miss Susan P Wharton a Philadelphia woman active in practical social reform and to the interest and generosity of Dr Charles Custis Harrison Provost of the University of Pennsylvania and other citizens of Philadelphia The Department of Finance and Economy Wharton School of the University of Pennsylvania had the general oversight of the work and I am under many obligations to the professors in that department for assistance and counsel Especially am I indebted to Dr Samuel McCune Lindsay Assistant Professor of Sociology for aid advice and sympathy without which the work could hardly have been brought to a successful close I must also express the general sense of obligation which I feel toward the Negroes of Philadelphia and especially toward those of the Seventh Ward for their broad minded attitude toward an inquiry which was at best a prying into private affairs About the Publisher Forgotten Books publishes hundreds of thousands of rare

and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Philadelphia Negro: a Social Study W. E. B. DuBois, 2010-03-09 IN AN appendix to his famous study of the American Negro An American Dilemma Gunnar Myrdal discussed the need for further research in the Negro community We cannot close this description of what a study of a Negro community should be he wrote without calling attention to the study which best meets our requirements a study which is now all but forgotten We refer to W E B DuBois The Philadelphia Negro published in 1899 One would hardly expect a greater tribute to this early classic in American sociology It is no wonder that there has not been a scholarly study of the American Negro in the twentieth century which has not referred to and utilized the empirical findings the research methods and the theoretical point of view of this seminal book A classic is sometimes defined as a book that is often referred to but seldom read The Philadelphia Negro written by a young scholar who subsequently became one of the three most famous Negro leaders in American history

The Philadelphia Negro William Edward Burghardt Du Bois, 1973 Twenty three research papers written by Liberman and colleagues at Haskins Laboratories charts the techniques methods and insights discovered about speech perception over a period of five decades The topics span a number of research dilemmas for example creating machine produced speech in 1944 when technology had not risen to the researchers imagination level Other subjects such as speech perception research motor theory research and investigations in auditory and phonetic modes are shown in process i e the errors and reversals as well as the successes Annotation copyright by Book News Inc Portland OR
