The Oxford Guide To Literature In English Translation:

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more. In the English speaking cultures many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Korean, from Swahili to Russian. For some works, e.g. Virgil's Aeneid, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text, e.g. poetry, oral literature. The second, much longer part, consists of entries grouped by language of origin; some are devoted to individual texts, e.g. the Thousand and One Nights, or writers, e.g. Ibsen, Proust, but the majority offer a critical overview of a genre, e.g. Chinese poetry, Spanish Golden Age drama, or of a national literature, e.g. Hungarian, Scottish Gaelic. There is a selective bibliography for each entry and an index of authors and translators.

The Oxford Guide to Literature in English Translation Peter France, 2005 [The Oxford Guide to Literature in English Translation](#) Peter France, 2000 This guide highlights the place of translation in our culture, encouraging awareness of the process of translating and the choices involved, making the translator more visible. Concentrating on major writers and works, it covers translations out of many languages from Greek to Hungarian, Korean to Turkish. For some works, e.g. Virgil's Aeneid, which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available.

The Oxford Guide to Literature in English Translation Peter France, 2000 *Literary Translation* Ida Klitgård, 2006 This volume of *Angles on the English Speaking World* discusses the intriguing inter-relatedness between the concepts and phenomena of world literature and translation. The term *worlding*, presented by Strur Eysteinnsson in this collection, is coined by Sarah Lawell in her book *Reading World Literature* 1994, where it denotes the reader's pleasurable reading of the meeting of worlds in a literary translation, i.e. the meeting of the different cultural environments embodied in a translation from one language into another. Through such reading, the reader in fact participates in creating true world literature. This is a somewhat unorthodox

conception of world literature conventionally defined as great literature shelved in a majestic canonical library In the opening article sparking off the theme of this collection Eysteinsson asks Which text does the concept of world literature refer to It can hardly allude exclusively to the original which the majority of the work's readers may never get to know On the other hand it hardly refers to the various translations as seen apart from the original It seems to have a crucial bearing on the border between the two and on the very idea that the work merits the move across this linguistic and cultural border to reside in more than two languages Picking up on this question at issue all the essays in this collection throw light on the problematic mechanics of cultural encounters when reading the world in literary translation i.e. in the texts themselves as well as in the ways in which they have become institutionalised as world literature

Rethinking Cultural Transfer and Transmission Petra Broomans, Sandra van Voorst, Karina Smits, 2012 *Rethinking Cultural Transfer and Transmission* Reflections and New Perspectives formulates new directions within the studies on cultural transfer and transmission including gender aspects of cultural transfer the importance of cultural transfer for minority literatures and approaches to writing a cultural transfer and transmission history The articles collected in this volume demonstrate that the field of cultural transfer and transmission is developing quickly and offers a variety of research possibilities New aspects are scrutinised and new insights gained from rediscovered material and although the discussion of the theoretical points of departure and the methods used has only just begun it is already providing us with interesting results and insights This book is Volume 4 in the book series *Studies on Cultural Transfer Transmission*

Beyond Boundaries Michelle Ying Ling Huang, 2012-04-25 *Beyond Boundaries East and West Cross Cultural Encounters* is a collection of essays which span several countries centuries and disciplines in their exploration of East West cultural exchanges and interactions The chapters are arranged in chronological and thematic order and encompass the cutting edge research of a diverse group of international scholars The subjects range from archaeology art history and photography to conservation sociology and cultural studies with cross disciplinary examples of classical modern and contemporary periods The book seeks to inspire new ideas and stimulate further scholarly debate on the convergence dissimilarities and mutual influences of the visual arts and material culture of Asia the Middle East Europe and the United States The volume will be of interest to scholars and students working in the fields of art and cultural history as well as intercultural studies It will be equally useful to collectors artists and curators of global art and world cultures

Meaning in Translation Larisa Ilynska, Marina Platonova, 2016-02-08 *Meaning in Translation Illusion of Precision* represents a collection of papers on fundamental and applied research on a wide range of linguistic topics including terminology standardisation and harmonisation the pragmatic semantic and grammatical aspects of meaning in translation and the translation of sacred legal poetic promotional and scientific and technical texts This volume offers a platform where scholars from various linguistic and cultural backgrounds studying a variety of subjects share their opinions on matters of utmost importance in the field of translation theory and practice This book will appeal to researchers working within the

various fields of linguistics language planners terminologists practicing translators and students at all levels as well as anybody interested in the dynamic development of a language

A History of Western Appreciation of

English-translated Tang Poetry Lan Jiang, 2018-03-08 This book examines the development of English translated Tang poetry and its propagation to the Western world It consists of two parts the first of which addresses the initial stage of English translated Tang poetry s propagation and the second exploring its further development By analyzing the historical background and characteristics of these two stages the book traces the trend back to its roots discusses some well known early sinologists and their contributions and familiarizes readers with the general course of Tang poetry s development In addition it presents the translated versions of many Tang poems The dissemination of Tang poetry to the Western world is a significant event in the history of cross cultural communication From the simple imitation of poetic techniques to the acceptance and identification of key poetic concepts the Tang poetry translators gradually constructed a classic Chinese style in modern American poetry Hence the traditional Chinese culture represented by Tang poetry spread more widely in the English speaking world producing a more lasting impact on societies and cultures outside China and demonstrating the poetry s ability to transcend the boundaries of time region nationality and culture Due to different cultural backgrounds the Tang poets or poems admired most by Western readers may not necessarily receive high acclaim in China Sometimes language barriers and cultural differences make it impossible to represent certain allusions or cultural and ethnic concepts correctly during the translation process However in recent decades the translation of Tang poetry has evolved considerably in both quantity and quality As culture is manifested in language and language is part of culture the translation of Tang poetry has allowed Western scholars to gain an unprecedented understanding of China and Chinese culture

Handbook of English Renaissance Literature Ingo Berensmeyer, 2019-10-08 This handbook of English Renaissance literature serves as a reference for both students and scholars introducing recent debates and developments in early modern studies Using new theoretical perspectives and methodological tools the volume offers exemplary close readings of canonical and less well known texts from all significant genres between c 1480 and 1660 Its systematic chapters address questions about editing Renaissance texts the role of translation theatre and drama life writing science travel and migration and women as writers readers and patrons The book will be of particular interest to those wishing to expand their knowledge of the early modern period beyond Shakespeare
