Joan Mitchell 1992 Joan Mitchell, 1993 **Joan Mitchell** Joan Mitchell, Judith E. Bernstock, 1988 **Joan Mitchell** Joan Mitchell, 1992 Between the mid 1950s and the early 60s the paintings of Joan Mitchell 1925 92 grew exponentially in sophistication and strength In the summer of 1953 she began to paint outdoors in the Hamptons developing an engagement with nature but with a crucial distinction from her male counterparts in the abstract expressionist movement As the late curator and writer Klaus Kertess wrote Pollock s I am nature is very different from Mitchell s being with nature in memory Pollock is more a shaman Mitchell more a lover But both share with van Gogh a high tuned visceral sensitivity to movement And both share the quality that Frank O Hara so aptly attributed to Pollock s paintings lyrical desperation This book looks at this period in which Mitchell began to travel regularly between Paris and New York and received her first major solo shows in the US and in France **Joan Mitchell** Joan Mitchell, 2007 Joan Mitchell 1926 1992 was a pre eminent painter of the Abstract Expressionist generation and along with Lee Krasner and Helen Frankenthaler one of the few female painters of her era to gain critical and public acclaim She came to attention in the early 1950s but only recently has her work won the recognition it truly merits Her large scale gestural paintings register a great acuity of feeling and tremendous vitality Leaving America documents Joan Mitchell s exhibition at Hauser and Wirth Gallery London which featured works made between 1960 and 1965 after she had relocated from New York to France In the paintings of this period Mitchell moved away

from the all over style and bright palette of earlier compositions instead deploying more sombre hues and dense central masses of color The brushwork in these paintings is nonetheless full of zest the paint flung and squeezed on to the canvases spilling and spluttering across surfaces and smeared on by hand Joan Mitchell: I carry my landscapes around with me Joan Mitchell, 2020-03-24 I carry my landscapes around with me focuses on American abstract artist Joan Mitchell s large scale multipanel works from the 1960s through the 1990s Mitchell s exploration of the possibilities afforded by combining two to five large canvases allowed her to simultaneously create continuity and rupture while opening up a panoramic expanse referencing landscapes or the memory of landscapes Mitchell established a singular approach to abstraction over the course of her career Her inventive reinterpretation of the traditional figure ground relationship and synesthetic use of color set her apart from her peers resulting in intuitively constructed and emotionally charged compositions that alternately evoke individuals observations places and points in time Art critic John Yau lauded her paintings as one of the towering achievements of the postwar period Published on the occasion of the eponymous exhibition at David Zwirner New York in 2019 this book offers a unique opportunity to explore the range of scale and formal experimentation of this innovative area of Mitchell s extensive body of work It not only features reproductions of each painting in this selection as a whole but also numerous details that allow an intimate understanding of the surface texture and brushwork In the complementing essays Suzanne Hudson examines boundaries borders and edges in Mitchell s multipanel paintings beginning with her first work of this kind The Bridge 1956 considering them as both physical and conceptual objects Robert Slifkin discusses the dynamics of repetition and energy in the artist s paintings in relation to works by Monet and Willem de Kooning among others *Joan Mitchell* Joan Mitchell, 1998 **Joan Mitchell** David Anfam, 2018-11-20 Between the mid 1950s and the early 60s the paintings of Joan Mitchell 1925-92 grew exponentially in sophistication and strength In the summer of 1953 she began to paint outdoors in the Hamptons developing an engagement with nature but with a crucial distinction from her male counterparts in the abstract expressionist movement As the late curator and writer Klaus Kertess wrote Pollock s I am nature is very different from Mitchell s being with nature in memory Pollock is more a shaman Mitchell more a lover But both share with van Gogh a high tuned visceral sensitivity to movement And both share the quality that Frank O Hara so aptly attributed to Pollock s paintings lyrical desperation This book looks at this period in which Mitchell began to travel regularly between Paris and New York and received her first major solo shows in the US and in France Joan Mitchell Richard D.
