Zoethout, 2023-03-20 Religious pluralism is an important aspiration of contemporary societies meaning that religious diversity is permitted and everyone has the freedom of religion or belief or not to believe The peaceful coexistence of people of a myriad of faiths is indispensable for securing peace in the modern era of political upheaval and economic dissonance This book brings together a variety of religious and non-religious perspectives on religious pluralism It explores the key philosophical and legal issues associated with religious freedom and social harmony Freedom of Religion and Religious Pluralism intends to serve as a valuable resource for scholars specialising in religion citizenship and migration studies It will also act as a reference for courses on law religion and human rights *Human and Environmental Security* Felix Dodds, Tim Pippard, 2013-06-17 Security has tended to be seen as based on military force yet this illusion is crumbling literally and figuratively before our eyes in the conflict zones of Iraq Afghanistan and Africa It is now clear that real human security defined by the Commission on Human Security as protecting vital freedoms can only be achieved if the full range of issues that underpin human security including

environmental integrity are addressed This ground breaking book authored by prominent international decision makers tackles the global human security problem across the range of core issues including terrorism nuclear proliferation access to water food security loss of biodiversity and climate change The authors identify the causes of insecurity articulate the linkages between the different elements of human security and outline an agenda for engaging stakeholders from across the globe in building the foundations of genuine and lasting human security for all nations and all people This is powerful necessary solution focused reading in these times of peril global conflict mass inequity and rampant environmental degradation

The Influence of Faith Elliott Abrams, 2002-05-30 Realists have long argued that the international system must be based on hard calculations of power and interest But in recent years religion s role on the international scene has grown The Influence of Faith examines religion as a growing factor in world politics and U S foreign policy Particular attention is placed on the American reaction to the persecution of Christians and Jews overseas as well as the role of faith based groups such as missionary and relief organizations in the formulation and implementation of U S policy The Influence of Faith considers these timely issues from diverse points of view offering broad historical analysis as well as concrete examples taken from current affairs
