

AIMS AND OBJECTIVES OF WILDLIFE CONSERVATION

- Wildlife management emerged as a branch of science in the 1930s.
- But, during the initial years, till 1960s, it primarily revolved around management of game animals.
- During 1970s this trend shifted as many people increasingly took interest and initiative to manage and protect several non-game species, especially the song-birds. Human perception, ethics, culture and legal concepts often intermingle with wildlife management practices.
